LIST OF AWARDS

The following awards will in a measure testify to the quality of our stock, but to appreciate more fully their value one must visit us in mid-June, when our Peony flowering season is at its height.

- 1893 Appleton Silver Medal, Collection of Peonies, Boston.
- 1899 Kelway Bronze Medal, Collection of Peonies, Boston.
- 1903 Kelway Silver Medal, Collection of Peonies, Boston.
- 1909 Massachusetts Horticultural Society Silver Medal, Collection of Peonies, Boston.
- 1914 M. H. Society Gold Medal, Popularizing Peonies, Boston.
- 1915 A. P. Society Gold Medal, Best Collection of Peonies, Boston.
- 1915 M. H. Society, Silver Medal, Seedling Cherry Hill, Boston.
- 1917 M. H. Society Silver Medal, Best Collection Peonies, Boston.
- 1918 A. P. Society Silver Medal, Best Collection Peonies, Boston.
- 1918 M. H. Society Silver Medal, Best Collection Peonies, Boston.
- 1919 M. H. Society Silver Medal, Collection Peonies, Boston.
- 1919 A. P. Society Gold Medal, Best Collection Peonies, Detroit, Mich.
- 1920 A. P. Society Silver Medal, Best Collection of Peonies, Boston.
- 1920 Appleton Gold Medal, Collection of Peonies, Boston.
- 1921 A. P. Society Gold Medal, Best Collection of Peonies, Boston.
- 1921 M. H. Society Silver Medal, Best Display of Peonies, Boston.
- 1922 M. H. Society Silver Medal, Display of Peonies, Boston.
- 1922 A. P. Society Gold Medal, Best Collection of Peonies, London, Ontario.
- 1922 A. P. Society, Movilla Silver Cup, Largest and Best Collection of Peonies rating 9.0 or over, London, Ontario.
- 1923 M. H. Society Silver Medal, Most Meritorious Display of Peonies, Boston.
- At the American Peony Show, St. Paul-Minneapolis, June, 1923, after a journey of half-way across the continent, the Cherry Hill Strain of Peonies had the INHERENT QUALITY and STAMINA to be worthy of the following three awards, besides many other First Prizes:
 - A. P. Society, Movilla Silver Cup, Largest and Best Collection of Peonies rating at 8.5 or over.
 - A. P. Society Silver Cup, Largest and Best Collection of Peonies.
 - A. P. Society First Prize for Largest and Best Display of Single and Japanese Peonies.
- 1924 American Peony Society's Silver Medal, Best Collection Peonies, Massachusetts Horticultural Society.
- 1924 President Burrage Silver Cup, Most Decorative Display, Massachusetts Horticultural Society.
- 1924 Silver Medal, Best Display Peonies arranged for effect, Massachusetts Horticultural Society.
- 1924 First Prize, Best Collection Double Peonies rating at 8.5 and over, Massachusetts Horticultural Society.

 Hybrid Lilacs.....Late May
 Azaleas.....Late May and early June
 Peonies.....June
 Rhododendrons and Kalmias....Early to late June
 Japanese Iris.....Mid July
 Phlox.....Mid July to early October
 Gladiolus.....August to October

FOREWORD

THE CHERRY HILL NURSERIES are known the world over where flower lovers congregate.

Situated 36 miles north of Boston and only about five miles from the Atlantic seaboard we are blessed with a climate and soils that seem especially well adapted to growing nursery productions.

Our grounds are open every weekday from 7 a.m. until 5 p.m. and anytime after that by appointment.

Courteous well-versed salesmen are always in attendance to show visitors around and we know that once you have seen the quality of our plants and trees you will readily feel that here Quality Abounds.

The prices listed herein cover good sturdy stock, as grown in the nursery row, but where an evergreen tree or shrub of outstanding quality is selected then a special price will be charged. Five plants of any one variety or size will be sold at the ten rate, and forty at the hundred rate.

All prices for stock are f.o.b. nurseries or railroad station. Boxing and packing will be charged at actual cost.

Our large fleet of pneumatic equipped trucks enable us to deliver stock anywhere within a radius of 500 miles promptly and at a reasonable price.

Experienced plantsmen furnished at reasonable prices.

We give no warranty expressed or implied as to the growth of any stock which we sell as we cannot govern weather or conditions under which it is planted.

We do guarantee, however, that all stock is in good condition at time of shipment and such as we would willingly receive were we ourselves buying any, and should any prove untrue to name we will gladly replace it at the first favorable time for planting. But it is mutually agreed between the purchaser and ourselves that we shall not be held responsible for a greater amount than the original purchase price.

NO COMPLAINTS WILL BE CONSIDERED
THAT ARE NOT MADE WITHIN TEN DAYS
AFTER RECEIPT OF STOCK

One to four plants of a single size and variety at the each rate; five to twenty-nine at the ten rate; thirty and up at the hundred rate when such rate is given.

PART I EVERGREEN TREES

Abies arizonica

Cork Fir

A fast growing tree with a corky bark. Very symmetrical and has beautiful steel blue foliage. Very scarce. H. 75-100 ft.

| | Each | Per 10 | Per 100 |
|-------------|-------|--------|---------|
| 4½ ft. | 15.00 | | |

Abies balsamea

Balsam Fir

A handsome shapely native tree with dark velvety green foliage. H. 60-70 ft.

| | | |
|------------|-------|--------|
| 2 ft. | 2.50 | 17.50 |
| 3 ft. | 4.00 | 37.50 |
| 4 ft. | 7.00 | 65.00 |
| 5 ft. | 9.00 | 85.00 |
| 6 ft. | 12.00 | 110.00 |
| 8 ft. | 15.00 | |

Abies concolor

Rocky Mountain Fir

One of the stateliest of our evergreens. Growth fairly rapid, broad and symmetrical. Foliage beautiful green to a handsome silver blue. 100 ft.

| | | |
|------------|-------|-------|
| 2 ft. | 5.50 | 50.00 |
| 3 ft. | 9.00 | |
| 4 ft. | 11.00 | |
| 5 ft. | 13.00 | |
| 6 ft. | 16.00 | |
| 7 ft. | 20.00 | |
| 8 ft. | 25.00 | |

Tall stately specimens 15 to 25 ft. tall \$50.00 and up

Chamaecyparis (see Retinospora)**Juniperus chinensis**

Chinese Juniper

A handsome bushy tree glaucous green in color. Reaches a height of 45-50 feet.

| | | |
|-------------|------|-------|
| 1½ ft. | 3.00 | 27.50 |
| 2 ft. | 4.00 | 37.50 |
| 3 ft. | 5.00 | |
| 3½ ft. | 6.50 | |

How we move large Evergreens at Cherry Hill. The height of this magnificent specimen Concolor Fir was 33 feet and the spread over 22 feet.

Juniperus chinensis columnaris

Pyramidal Chinese Juniper

A compact form of the chinensis, but has beautiful steel-blue foliage. New and somewhat rare.

| | Each | Per 10 | Per 100 |
|-------------|------|--------|---------|
| 1½ ft. | 3.50 | 32.50 | |
| 2 ft. | 5.00 | | |
| 3 ft. | 7.00 | | |
| 4 ft. | 9.00 | | |

Juniperus chinensis pfitzeriana

Pfitzer's Juniper

A very broad and spreading variety. Foliage of a light green to a silvery tint. Very pleasing.

| | | | |
|----------------------|--------------|--------|---------|
| 1½ ft. | 3.50 | 32.50 | |
| 2 ft. | 4.75 | 45.00 | |
| 2½ ft. | 6.50 | 60.00 | |
| 3 ft. | 8.50 | 82.50 | |
| 3½ ft. | 11.00 | 100.00 | 900.00 |
| 4 ft. | 15.00 | 140.00 | 1200.00 |
| 4½ ft. | 18.00 | 160.00 | 1500.00 |
| 5 ft. | 20.00 | 180.00 | 1750.00 |
| 6 ft. | 25.00 | 225.00 | |
| Larger specimens ... | 25.00 and up | | |

Juniperus communis

Upright form

A hardy type of upright juniper semi-dwarf in habit of growth

| | | |
|-------------|------|-------|
| 2 ft. | 3.00 | 28.00 |
| 2½ ft. | 4.00 | 37.00 |
| 3 ft. | 5.50 | 50.00 |

Juniperus communis depressa

Prostrate Juniper

A hardy, valuable low-spreading form, much used as a ground cover.

| | | |
|-------------|------|-------|
| 12 in. | 1.50 | 13.50 |
| 15 in. | 1.75 | 16.00 |
| 1½ ft. | 2.50 | 22.50 |
| 2 ft. | 3.50 | 32.50 |
| 2½ ft. | 5.00 | 47.50 |
| 3 ft. | 6.00 | 55.00 |
| 3½ ft. | 7.50 | 70.00 |

Juniperus communis hibernica

Irish Juniper

A compact semi-dwarf tree of pyramidal form. Foliage an attractive greenish blue.

| | | |
|-------------|------|-------|
| 2 ft. | 2.75 | 25.00 |
| 2½ ft. | 3.50 | 32.50 |
| 3 ft. | 5.00 | |
| 3½ ft. | 7.00 | |

Juniperus depressa plumosa

Plumed Spreading Juniper

A new introduction having an attractive purple foliage during the winter months. A valuable addition to the ground covering evergreens.

| | | |
|-------------|------|-------|
| 12 in. | 2.50 | 22.50 |
| 15 in. | 3.00 | 25.00 |
| 18 in. | 4.00 | 36.00 |

One to four plants of a single size and variety at the each rate: five to twenty-nine at the ten rate: thirty and up at the hundred rate when such a rate is given.

Juniperus horizontalis Creeping Juniper
A semi-dwarf variety particularly adapted for medium to large size rock gardens.

| | Each | Per 10 | Per 100 |
|------------|------|--------|---------|
| 15 in..... | 2.50 | 22.50 | |
| 1½ ft..... | 4.50 | 42.50 | |
| 2 ft..... | 6.00 | 55.00 | |

Juniperus japonica Japanese Juniper
A semi-dwarf low spreading variety with attractive dark green foliage.

| | | |
|------------|-------|-------|
| 1½ ft..... | 5.00 | 47.50 |
| 2 ft..... | 6.00 | 57.50 |
| 2½ ft..... | 7.50 | 72.00 |
| 3 ft..... | 10.00 | 90.00 |

Juniperus japonica aurea

Golden Japanese Juniper

A very dwarf rich golden yellow variety of drooping habit. Very valuable in rock gardens and edgings for foundation plantings.

| | |
|------------|------|
| 9 in..... | 2.00 |
| 12 in..... | 3.50 |

Juniperus sabina

Sabin Juniper

A very pleasing semi-dwarf juniper with dark velvety green foliage. Growth semi-upright.

| | | |
|------------|-------|--------|
| 9 in..... | 1.50 | 13.50 |
| 12 in..... | 2.00 | 18.00 |
| 15 in..... | 2.75 | 25.00 |
| 1½ ft..... | 3.75 | 35.00 |
| 2 ft..... | 5.00 | 45.00 |
| 2½ ft..... | 6.00 | 55.00 |
| 3 ft..... | 7.00 | 67.00 |
| 3½ ft..... | 9.00 | 80.00 |
| 4 ft..... | 12.50 | 110.00 |

Juniperus sabina tamariscifolia

Tamarisk-leaved Juniper

A very excellent dwarf variety with attractive finely-cut foliage. Dense spreading habit. Very good for rock gardens.

| | | |
|-----------------------|---------------------|-------|
| 9 in..... | 2.00 | 17.50 |
| 12 in..... | 2.50 | 22.50 |
| 15 in..... | 3.50 | 32.50 |
| 18 in..... | 4.50 | 42.50 |
| 21 in..... | 5.50 | 52.50 |
| 2 ft. specimens..... | 7.00 to 12.00 each | |
| 2½ to 3 ft. specimens | 12.00 to 25.00 each | |

Juniperus squamata

Another very interesting dwarf evergreen of spreading habit and well adapted for rock gardens. Foliage unique and of a steely green color.

| | |
|------------|------|
| 9 in..... | 2.00 |
| 12 in..... | 3.00 |
| 15 in..... | 4.50 |
| 1½ ft..... | 5.50 |
| 2 ft..... | 6.50 |

Evergreens give warmth and cheer during the winter.

Juniperus squamata meyeri Meyer's Juniper

One of the newest and most interesting dwarf varieties. Semi-upright in growth with a rich deep steel-blue foliage. Excellent for rock plantings.

| | Each | Per 10 | Per 100 |
|-------------|------|--------|---------|
| 9 in. | 3.00 | 28.00 | |
| 12 in. | 4.00 | 36.00 | |
| 15 in. | 6.00 | 57.00 | |
| 18 in. | 8.00 | 75.00 | |

Juniperus virginiana Native Red Cedar

One of the most attractive of the tall and stately evergreens. Pyramidal in form and ranging in color from a beautiful steel blue to a deep velvety green.

| | | |
|---------------------|--------------|--------|
| 2 ft. | 2.25 | 20.00 |
| 2½ ft. | 3.00 | 27.50 |
| 3 ft. | 3.50 | 32.50 |
| 4 ft. | 5.00 | 47.50 |
| 5 ft. | 8.00 | 77.50 |
| 6 ft. | 10.00 | 95.00 |
| 7 ft. | 13.00 | 120.00 |
| 10 ft. and up. | 25.00 and up | |

Juniperus virginiana glauca Blue Juniper

A graceful semi-drooping form with a beautiful silvery-blue foliage.

| | | |
|-------------|-------|-------|
| 2 ft. | 4.50 | 42.50 |
| 2½ ft. | 5.50 | 52.50 |
| 3 ft. | 7.00 | 67.50 |
| 3½ ft. | 8.50 | 82.50 |
| 4 ft. | 10.00 | 95.00 |
| 5 ft. | 15.00 | |

Picea canadensis American White Spruce

A very hardy native variety attaining a height of 75-80 ft. Very well adapted for seashore planting.

| | | |
|-------------|------|-------|
| 2 ft. | 2.00 | 18.50 |
| 2½ ft. | 3.00 | 27.50 |
| 3 ft. | 4.50 | 42.50 |
| 4 ft. | 7.00 | 65.00 |

Picea glauca conica Dwarf Albert Spruce

A very interesting dwarf tree conical in shape and of dense compact growth. Well adapted for either formal or rock garden plantings.

| | |
|-------------|-------|
| 12 in. | 4.00 |
| 15 in. | 5.00 |
| 18 in. | 6.00 |
| 21 in. | 7.00 |
| 2 ft. | 10.00 |
| 2½ ft. | 13.00 |

Gold Medal awarded by Massachusetts Horticultural Society, 1930 for Rhododendron Display.

Picea excelsa

Norway Spruce

A very shapely rapid-growing tree excellent for hedges—windbreaks and timber 100 to 125 ft. in height.

| | Each | Per 10 | Per 100 |
|-------------|------|--------|---------|
| 1½ ft. | 1.50 | 13.50 | |
| 2 ft. | 2.00 | 18.50 | |
| 2½ ft. | 3.00 | 27.50 | |
| 3 ft. | 3.50 | 32.50 | |
| 4 ft. | 5.00 | 45.00 | |
| 5 ft. | 6.50 | 60.00 | |
| 6 ft. | 8.00 | 75.00 | |

Picea excelsa conica

Arrowhead Norway Spruce

A very attractive semi-dwarf tree, bushy and of dense growth.

| | |
|-------------|-------|
| 3 ft. | 12.00 |
| 3½ ft. | 15.00 |
| 4 ft. | 20.00 |
| 4½ ft. | 25.00 |
| 5 ft. | 30.00 |

Picea excelsa maxwelli

Maxwell's Dwarf Spruce

A very interesting dwarf type evergreen. Grows very dense and broad. Quite rare.

2 to 3 ft. specimens . 45.00 to 75.00 each

Picea moerheimi

Moerheim Blue Spruce

This variety has been but recently introduced in this country and is considered the best of all the blues. Stock limited.

| | |
|-------------|-------|
| 2½ ft. | 16.00 |
| 3 ft. | 20.00 |
| 3½ ft. | 25.00 |
| 4 ft. | 30.00 |
| 5 ft. | 35.00 |

Picea pungens

Colorado Spruce

These exceptionally hardy trees are very well shaped and prove quite attractive. Foliage medium green.

| | | | |
|-------------|------|-------|--------|
| 1½ ft. | 3.00 | 25.00 | 225.00 |
| 2 ft. | 4.50 | 40.00 | 300.00 |
| 3 ft. | 6.00 | 55.00 | 450.00 |

Picea pungens glauca

Colorado Blue Spruce

These trees with their beautiful steel-blue foliage prove very attractive and are much used for both individual and group planting.

| | |
|-------------|-------|
| 2 ft. | 7.50 |
| 2½ ft. | 9.00 |
| 3 ft. | 10.50 |
| 3½ ft. | 12.50 |
| 4 ft. | 16.00 |
| 5 ft. | 20.00 |

Picea pungens kosteri

Koster's Blue Spruce

This old time tested variety is outranked only by the moerheimi in rich blue coloring and is still very popular.

| | |
|-------------|-------|
| 2½ ft. | 15.00 |
| 3 ft. | 18.00 |
| 3½ ft. | 22.50 |

A permanent Christmas tree is a delight throughout the year.

Pinus cembra

Swiss Stone Pine

This semi-dwarf tree with its greenish blue foliage is quite popular both for foundation plantings and as individual trees. Very scarce in this country.

| | Each | Per 10 | Per 100 |
|----------------------|---------------------|--------|---------|
| 2 ft. | 7.00 | | |
| 2½ ft. | 8.00 | | |
| 3 ft. | 9.00 | | |
| 3½ ft. | 12.00 | | |
| 4 ft. | 15.00 | | |
| 4½ ft. | 18.00 | | |
| 5 to 7 ft. specimens | 22.00 to 35.00 each | | |

Pinus montana

Mountain Pine

This semi-dwarf pine is used a good deal in planting out estates and is much admired.

| | | | |
|-------------|------|-------|--|
| 1½ ft. | 3.50 | 32.50 | |
| 2 ft. | 4.50 | 42.50 | |
| 2½ ft. | 7.00 | 65.00 | |

Pinus montana mughus

Dwarf Mountain Pine

This dwarf growing tree broad and bushy with its dark green unique foliage is much admired by tree lovers.

| | | | |
|---------------------|-------|-------|--------|
| 9 in. spread. | 1.75 | 15.00 | |
| 12 in. spread. | 2.50 | 22.50 | 200.00 |
| 15 in. spread. | 3.50 | 30.00 | 275.00 |
| 18 in. spread. | 4.00 | 36.00 | 325.00 |
| 24 in. spread. | 7.00 | 67.50 | |
| 30 in. spread. | 10.00 | 95.00 | |

Pinus nigra

Austrian Pine

One of the hardiest and best adapted for the seashore.

| | | | |
|-------------|------|-------|--|
| 2 ft. | 4.00 | 37.50 | |
| 2½ ft. | 4.50 | 40.00 | |
| 3 ft. | 6.50 | 60.00 | |
| 4 ft. | 9.00 | 80.00 | |

Pinus resinosa

Red Pine

An excellent variety for timber, forestry, or landscape work.

| | | | |
|------------------------|---------------------|-------|--------|
| 1½ ft. | 1.50 | 12.50 | 100.00 |
| 2 ft. | 2.00 | 18.00 | 160.00 |
| 2½ ft. | 3.00 | 27.50 | 250.00 |
| 3 ft. | 5.00 | 45.00 | 400.00 |
| 12 ft. specimens. | 35.00 | | |
| 13 to 16 ft. specimens | 40.00 to 60.00 each | | |

Pinus sylvestris

Scotch Pine

This picturesque tree with its silvery foliage and reddish brown trunk meets with ready favor.

| | | | |
|---------------------|-------------------|-------|--|
| 4 ft. | 5.50 | 50.00 | |
| 5 ft. | 6.50 | 60.00 | |
| 6 ft. | 9.00 | 80.00 | |
| Larger sizes from 8 | | | |
| to 14 ft. | 15.00 up to 50.00 | | |

One to four plants of a single size and variety at the each rate: five to twenty-nine at the ten rate: thirty and up at the hundred rate when such a rate is given.

Pseudotsuga douglasii

| | Each | Douglas Spruce Per 100 |
|------------------------|--------------|---------------------------|
| 2 ft..... | 3.00 | 27.50 |
| 2½ ft..... | 4.00 | 37.50 |
| 3 ft..... | 5.00 | 47.50 |

| 3½ ft. | 7.00 | |
| 4 ft. | 9.00 | |

Sciadopitys verticillata Umbrella Pine

Of Japanese origin. Presents a striking appearance. Very scarce.

Large specimens, 3½
to 8 ft. 25.00 to 75.00 each

Spruce (see Picea)**Taxus baccata repandens** English Spreading Yew

Of attractive low-growing habit. Foliage of a pleasing dark green.

| | | |
|------------------------|---------------|-------|
| 12 in. | 3.25 | 30.00 |
| 15 in. | 4.00 | 37.50 |
| 18 in. | 5.00 | 47.50 |
| 21 in. | 6.50 | 60.00 |
| 2 to 3 ft. specimens . | 8.00 to 20.00 | each |

Evergreen rock gardens are attractive the year around.

Taxus canadensis

American Yew

Broad and spreading in habit. Foliage varying from a deep green to a dark brown.

| | Each | Per 10 | Per 100 |
|-----------------------|--------------------|--------|---------|
| 15 in..... | 2.25 | 20.00 | |
| 18 in..... | 2.75 | 25.00 | |
| 21 in..... | 3.25 | 30.00 | |
| 2 ft..... | 3.75 | 35.00 | |
| 2½ to 5 ft. specimens | 5.00 to 30.00 each | | |

Taxus cuspidata

Spreading Japanese Yew

A semi-upright form, faster-growing than the nana. Foliage a brownish green.

| | | | |
|---------------------------|---------------------|-------|--------|
| 12 in..... | 2.25 | 20.00 | 175.00 |
| 15 in..... | 3.25 | 30.00 | 275.00 |

| 21 in..... | 10.00 | 95.00 | |
| 2 to 3½ ft. specimens | 16.00 and up | | |
| Larger specimens, 4 to 8 ft..... | Prices on application | | |

Taxus cuspidata capitata

Upright Yew

This type is of tree form with strong lateral branches. Can be trimmed into a compact pyramidal form to take the place of Boxwood, or used as an individual tree. Extra desirable for hedges.

| | | | |
|-----------------------|----------------------|-------|--|
| 15 in..... | 3.50 | 33.00 | |
| 1½ ft..... | 5.00 | 47.50 | |
| 2 ft..... | 7.50 | 70.00 | |
| 2½ ft..... | 10.00 | 95.00 | |
| 3 ft..... | 14.00 | | |
| 3½ ft..... | 18.00 | | |
| 3½ to 6 ft. specimens | 25.00 to 100.00 each | | |

Taxus hatfieldi

Hatfield's Upright Yew

This valuable addition to the Taxus family was considered by both Mr. Hatfield and Mr. E. H. Wilson as the best of the taxus introductions put out by Mr. Hatfield. Our stock was procured direct from Mr. Hatfield about six years ago. Is compact and columnar in growth and exceptionally well adapted for hedge work or as individual specimens.

| | | | |
|------------|------|-------|--|
| 15 in..... | 4.00 | 38.00 | |
| 18 in..... | 5.50 | 52.50 | |
| 21 in..... | 7.00 | 67.50 | |
| 2 ft..... | 8.50 | 82.50 | |

The yews do well in sun or shade.

Thuya occidentalis American Arborvitae
Used extensively for hedges and screens. Foliage brownish green.

| | Each | Per 10 | Per 100 |

| 7 ft..... | 15.00 | 135.00 | |
| 8 to 10 ft. specimens | 18.00 to 30.00 | each | |

Thuya pyramidalis douglasi

Douglas Pyramidal Arborvitae

Of dense columnar form, much like the Pyramidal Arborvitae except that the foliage is peculiarly twisted.

| | | | |
|------------|-------|-------|--|
| 2½ ft..... | 3.50 | 32.50 | |
| 3 ft..... | 4.50 | 42.50 | |
| 4 ft..... | 7.00 | 65.00 | |
| 5 ft..... | 10.50 | 90.00 | |
| 6 ft..... | 14.50 | | |

Thuya rosenthali

Rosenthal's Arborvitae

Handsome, dark green, dense pyramidal form, slow growth. We consider this variety the best of the pyramidal forms.

| | | | |
|------------|-------|--------|--|
| 2 ft..... | 3.75 | 35.00 | |
| 2½ ft..... | 4.50 | 42.50 | |
| 3 ft..... | 6.00 | 55.00 | |
| 3½ ft..... | 7.50 | 70.00 | |
| 4 ft..... | 9.00 | 85.00 | |
| 4½ ft..... | 10.50 | 95.00 | |
| 5 ft..... | 13.00 | 120.00 | |

Awarded us by Massachusetts Department of Agriculture for "Ground Ornamentation".

Thuya wareana

Siberian Arborvitae

One of the hardiest of the Arborvitaes. Very fine for low hedges, as its growth is rather slow and form compact.

| | Each | Per 10 | Per 100 |
|---------------------|-----------------------|--------|---------|
| 1½ ft. | 2.75 | 25.00 | 225.00 |

| 2½ ft. | 9.00 | 85.00 | |
| 2½ ft. to 3½ ft. broad and bushy. | 12.00 to 20.00 each | | |

Buxus suffruticosa

Dwarf Boxwood

Excellent as an edging for flower beds, drives or walks.

| | | | |
|-------------------|-----|------|-------|
| 6 in. bushy. | .45 | 4.00 | 35.00 |
| 8 in. bushy. | .60 | 5.50 | 45.00 |

Daphne cneorum

Garland Flower

Blossoms a bright beautiful pink, foliage light green.

| | | | |
|--|-------------------|-------|--|
| 6 in. stocky plants .. | .90 | 8.50 | |
| 8 in. stocky plants .. | 1.35 | 12.00 | |
| 10 in. stocky plants .. | 2.00 | 17.50 | |
| 12 to 18 in. specimens, stocky plants. | 3.00 to 5.00 each | | |

One to four plants of a single size and variety at the each rate: five to twenty-nine at the ten rate: thirty and up at the hundred rate when such a rate is given.

Euonymus radicans

Evergreen Bittersweet

A dwarf-growing, semi-erect vine. Leaves 1 to 1¼ inches long and about ½ inch wide. Extensively used for rock gardens and low rock work.

| | Each | Per 10 | Per 100 |
|-------------------|------|--------|---------|
| 2 yr. | .50 | 4.50 | 40.00 |
| 3 yr. heavy. | .60 | 5.50 | 45.00 |
| 4 yr. heavy. | .80 | 7.50 | 60.00 |

Euonymus radicans carrieri

Glossy Bittersweet

Bright and glossy with green leaves midway in size between radicans and vegetus.

| | | |
|------------|-----|------|
| 2 yr. | .50 | 4.50 |
| 3 yr. | .70 | 6.00 |
| 4 yr. | .90 | 8.50 |

Large specimens 3.00 to 8.00 each

Euonymus radicans colorata

A new form, of rapid growth with leaves of deep green above and dull red undercolor. In the fall the foliage turns bronze-red.

| | | |
|------------|------|------|
| 2 yr. | .75 | 7.00 |
| 3 yr. | .85 | 8.00 |
| 4 yr. | 1.00 | 9.00 |

Euonymus vegetus

Broad-leaved Bittersweet

Dark green leaves, nearly round and often an inch in diameter. Bright red berries are borne in profusion and remain nearly all winter.

| | | | |
|--------------------|------|-------|-------|
| 2 yr. strong. | .60 | 5.50 | 48.00 |
| 3 yr. strong. | .75 | 7.00 | 65.00 |

| 2 ft. bushy clumps . . | 3.75 | 35.00 | |
| 2½ ft. bushy clumps . | 4.50 | 42.50 | |
| 3 ft. bushy clumps . . | 5.50 | 52.50 | |
| 3½ ft. bushy clumps . | 6.50 | 62.50 | |
| 4 ft. | 9.00 | 87.50 | |
| 5 ft. | 13.50 | | |

Rhododendron minus

Piedmont Rhododendron

A dwarf variety somewhat resembling *R. carolinianum* but faster growing. White to deep pink blossoms.

| | |
|-------------|------|
| 2 ft. | 4.50 |
| 2½ ft. | 6.00 |
| 3 ft. | 8.00 |

Vinca minor

Periwinkle

A trailing evergreen vine, bearing deep blue flowers
Useful for a ground cover in shady spots.

| | | | |
|------------------------------------|-----|------|-------|
| Strong field-grown plants. | .25 | 2.20 | 18.00 |
|------------------------------------|-----|------|-------|

Yucca filamentosa

Adam's Needle

A very striking plant, bearing great spikes of
creamy-white flowers.

| | | | |
|--------------|-----|------|-------|
| 2 year. | .25 | 2.25 | 20.00 |
| 3 year. | .35 | 3.00 | |
| 4 year. | .50 | 4.50 | |

DECIDUOUS TREES**Acer palmatum**

Japanese Dwarf Green-leaf Maple

Foliage finely cut. Very desirable bushy type.

| | |
|-------------|------|
| 2½ ft. | 3.00 |
| 3 ft. | 3.50 |

Acer palmatum atropurpureum

Japanese Blood-leaved Maple

Semi-dwarf and bushy. Foliage bright blood-red.

Especially adapted for lawn planting.

| | | |
|------------------------|--------------|-------|
| 2 ft. | 5.00 | 47.50 |
| 2½ ft. | 6.00 | 57.50 |
| 3 ft. | 7.50 | 72.50 |
| 3½ ft. | 9.00 | |
| 4 ft. | 11.00 | |
| 4½ ft. | 14.00 | |
| 12 to 14 ft. specimens | 35.00 and up | |

Planting around a house helps make it a home.

Acer platanoides

Norway Maple

This variety is shorter and broader than the Sugar Maple. Leaves large, dark green. Valuable as shade tree.

| | Each | Per 10 | Per 100 |
|--|------|--------|---------|
| 6 ft..... | 2.00 | 18.00 | |
| 7 ft..... | 2.50 | 22.50 | |
| 8 ft.—1-1 $\frac{1}{4}$ in. cal . . | 3.50 | 32.50 | |
| 10 ft.—1 $\frac{1}{4}$ -1 $\frac{1}{2}$ in. cal. | 5.00 | 47.50 | |
| 12 ft.—1 $\frac{1}{2}$ -1 $\frac{3}{4}$ in. cal. | 6.00 | 57.50 | |

Acer platanoides schwedleri Purple-leaved Maple

The deep purple leaves, changing to a rich bronze in the fall, make this variety especially attractive as an individual tree.

| | | |
|-----------|------|-------|
| 7 ft..... | 3.50 | 32.50 |
| 8 ft..... | 5.00 | 47.50 |
| 9 ft..... | 6.00 | 55.00 |

Acer saccharum

Sugar Maple

Fast growing and shapely. Most popular of all maples.

| | | |
|--|--------------|-------|
| 6 ft..... | 2.25 | 20.00 |
| 8 ft..... | 3.25 | 30.00 |
| 10 ft..... | 4.50 | 42.50 |
| 12 ft..... | 6.00 | 57.50 |
| 18 to 30 ft. high, 4 to 8 in. cal. specimens . . | 20.00 and up | |

Aesculus hippocastanum White Horse Chestnut

Trees beautifully shaped and showy. Flowers borne in large snowy racemes.

| | |
|-------------------------------|---------------------|
| Specimens 4 to 8 in. cal..... | 25.00 to 75.00 each |
|-------------------------------|---------------------|

Ash (See Fraxinus)**Beech (See Fagus)****Betula pendula laciniata**

Cut-leaf Weeping Birch

A very attractive lawn tree. Growth tall and graceful, branches semi-drooping. Foliage finely cut.

| | | |
|------------|-------|-------|
| 7 ft..... | 4.00 | |
| 8 ft..... | 5.00 | 45.00 |
| 10 ft..... | 7.00 | |
| 12 ft..... | 8.00 | |
| 14 ft..... | 10.00 | |

Cercis canadensis

American Red Bud

Small tree bearing a profusion of deep pink flowers in early spring.

| | | |
|----------------|------|-------|
| 2 ft..... | .90 | |
| 3 to 4 ft..... | 1.10 | 10.00 |
| 4 to 5 ft..... | 1.50 | 14.00 |

Chionanthus virginica

White Fringe

A medium growing tree with dark foliage. Flowers beautiful white in long racemes.

| | |
|-------------------------|------|
| 2 $\frac{1}{2}$ ft..... | 1.50 |
| 3 ft..... | 2.00 |
| 3 $\frac{1}{2}$ ft..... | 2.50 |
| 4 ft..... | 3.00 |
| 5 ft..... | 4.00 |

Cornus florida

White Flowering Dogwood

This variety is very ornamental either as an individual tree, in groups, or planted among other trees in a grove. Bears an abundance of handsome white flowers. Extra strong bushy plants.

| | Each | Per 10 | Per 100 |
|--|---------------------|--------|---------|
| 2½ ft. balled and bur-lapped | 1.25 | 11.00 | |
| 3 ft. b. and b. | 1.75 | 15.00 | |
| 4 ft. b. and b., bushy | 3.50 | 32.50 | |
| 5 ft. b. and b., bushy | 5.00 | 47.50 | |
| 6 ft. b. and b., bushy | 7.00 | 62.50 | |
| 7 ft. b. and b., bushy | 10.00 | 90.00 | |
| Larger specimens | 15.00 to 35.00 each | | |

Cornus florida rubra

Pink Flowering Dogwood

A pink form of the above, bearing enormous quantities of attractive pink flowers. Extra strong plants.

| | | | |
|---------------------------------------|-------|-------|--|
| 3 ft. balled and bur-lapped | 5.00 | 47.50 | |
| 3½ ft. b. and b. | 6.50 | 62.50 | |

| 5½ ft..... | 4.50 | 40.00 | |
| 6 ft..... | 5.00 | 45.00 | |

Malus niedzwetzkyana Red-veined Flowering Crab

Bark and flowers a deep rich red, foliage dark green and shiny.

| | |
|------------|------|
| 3 ft..... | 2.00 |
| 3½ ft..... | 2.25 |
| 4 ft..... | 2.50 |
| 5 ft..... | 3.50 |
| 6 ft..... | 4.50 |

Malus parkmani

Parkman's Crab

Masses of bright rose-red double flowers.

| | |
|------------|------|
| 2½ ft..... | 1.50 |
| 3 ft..... | 2.00 |
| 4 ft..... | 3.00 |
| 5 ft..... | 4.00 |
| 6 ft..... | 5.00 |

Malus robusta

Cherry Crab

Very early flowering; large white blossoms.

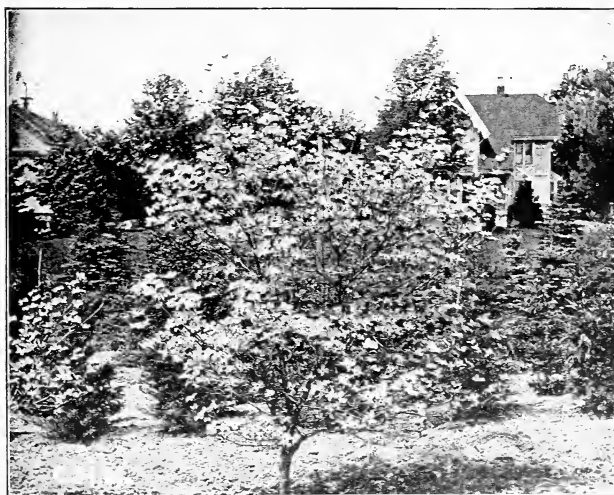

| | |
|-----------|------|
| 6 ft..... | 4.50 |
| 7 ft..... | 5.50 |

Malus sargentii

Sargent's Crab

A dwarf spreading variety, bearing pure white flowers. Bright scarlet fruits hang on all winter.

| | |
|------------|------|
| 2 ft..... | 1.75 |
| 2½ ft..... | 2.50 |
| 3 ft..... | 3.25 |
| 3½ ft..... | 4.00 |
| 4 ft..... | 5.00 |

White and Pink Dogwood (*Cornus florida*) give charming effects in the early spring.

Malus sheideckeri

Beautiful deep pink

| | Each | Per 10 | Per 100 |
|----------------------|-------------------|--------|---------|
| 4 ft. | 3.00 | | |
| 5 ft. specimen. | 4.00 to 6.00 each | | |
| 6 ft. specimen. | 5.00 to 8.00 each | | |

Malus sieboldi

Toringo Crab

Large pink and white flowers. Brilliant scarlet fruit.

| | |
|------------|------|
| 6 ft. | 5.50 |
|------------|------|

Malus spectabilis

Chinese Flowering Crab

Very fragrant, large, semi-double pink flowers.

| | |
|-------------|------|
| 2½ ft. | 1.25 |
| 3 ft. | 1.75 |
| 4 ft. | 2.50 |
| 5 ft. | 3.25 |

For specimen sizes and prices of flowering crabs write for special sheet.

Populus nigra italica

Lombardy Poplar

Fast-growing pyramidal trees. Used extensively for avenue planting and windbreaks.

| | | | |
|------------------------|--------------------|-------|--------|
| 6 ft. | 1.10 | 10.00 | |
| 8 ft. | 1.35 | 12.50 | 110.00 |

Berberis thunbergii atropurpurea

Red-leaf Barberry

A desirable new introduction, bearing bright red leaves throughout the entire season.

| | | | |
|------------|-----|------|--|
| 12 in..... | .80 | 7.00 | |
| 15 in..... | .90 | 8.00 | |

Berberis vulgaris

Common Barberry

An upright shrub bearing long racemes of bright yellow flowers followed by scarlet berries.

| | | | |
|-----------|-----|------|--|
| 2 ft..... | .60 | 5.00 | |
|-----------|-----|------|--|

Black Adler (See Ilex)**Buddleia alternifolia**

Chinese Butterfly Bush

The hardiest and most valuable of all the *Buddleias*. Blooms profusely from midsummer till frost. Lavender purple. New introduction.

| | | | |
|------------------------|------|-------|--|
| Strong 2 yr. plants .. | 1.50 | 13.00 | |
|------------------------|------|-------|--|

Clethra alnifolia

Sweet Pepper Bush

The spicy fragrance which emanates from these flowers is noticeable for some distance, and the dark green leaves are ornamental throughout the summer.

| | | | |
|-----------------|-----|------|--|
| 1½ to 2 ft..... | .60 | 5.50 | |
| 2 to 2½ ft..... | .75 | 6.00 | |

Cornus alba

Red-barked Cornel

Especially desirable for winter, as the bright red bark is very decorative.

| | | | |
|-----------------|-----|------|--|
| 2½ to 3 ft..... | .50 | 4.00 | |
| 3 to 4 ft..... | .60 | 5.00 | |

Plan for your outdoor living room this summer.

| | | | |
|--|------|--------|---------|
| Cornus stolonifera aurea Yellow-barked Cornel | | | |
| This is a companion shrub to the alba. Bright yellow bark during the winter months. | | | |

| 4 to 5 ft..... | 1.75 | 16.50 |

Forsythia intermedia spectabilis

Showy Golden Bell

The forsythias are the most showy shrubs of their season of bloom, which is in early April. This new variety produces masses of yellow flowers almost hiding the plant.

| | | |
|----------------|------|------|
| 3 to 4 ft..... | 1.00 | 7.50 |
|----------------|------|------|

Forsythia suspensa

Weeping Golden Bell

Forsythia suspensa, with its pendulous branches of golden blossoms, is fine wherever a drooping effect is desired.

| | | |
|-----------------|-----|------|
| 2 to 2½ ft..... | .50 | 4.50 |
| 2½ to 3 ft..... | .65 | 6.00 |
| 3 to 4 ft..... | .75 | 7.00 |

Forsythia suspensa fortunei

Fortune's Forsythia

Similar to the type, except that it has an upright growth, sometimes attaining a height of six or eight feet.

| | | |
|-----------------|------|------|
| 2 to 2½ ft..... | .50 | 4.50 |
| 2½ to 3 ft..... | .65 | 6.00 |
| 3 to 4 ft..... | .75 | 7.00 |
| 4 to 5 ft..... | 1.00 | 9.00 |
| 5 to 6 ft..... | 1.25 | |

Hamamelis virginiana

Witch Hazel

Ornamental yellow blossoms in late fall or winter.

| | | |
|-----------------|-----|------|
| 2 to 2½ ft..... | .65 | 6.00 |
| 2½ to 3 ft..... | .75 | 6.50 |
| 3 to 4 ft..... | .90 | 8.50 |

Honeysuckle (See Lonicera)

Hydrangea arborescens grandiflora

Hills of Snow

A variety bearing flat heads of white in late June and July and continuing throughout the season. Foliage clean and ornamental.

| | | |
|-----------------|-----|------|
| 1½ to 2 ft..... | .60 | 5.00 |
| 2 ft..... | .75 | 6.50 |
| 3 to 4 ft..... | .90 | 8.00 |

Plants with berries have color for a long season.

Hydrangea paniculata grandiflora

Common Hydrangea

Too well known to need description, but unexcelled for a profusion of bloom through August and September. The large panicles of white slowly change to red.

| | Each | Per 10 | Per 100 |
|-----------------|------|--------|---------|
| 2 to 2½ ft..... | .50 | 5.00 | 35.00 |
| 2½ to 3 ft..... | .70 | 6.00 | 45.00 |
| 3 to 3½ ft..... | .80 | 6.50 | 50.00 |
| 3½ to 4 ft..... | 1.00 | 8.00 | 60.00 |
| 4 to 5 ft..... | 1.25 | 11.00 | 90.00 |
| 5 to 6 ft..... | 1.60 | 14.50 | 125.00 |

Ilex verticillata

Winterberry

Tall-growing plant, bearing quantities of scarlet berries throughout the winter.

| | | |
|-----------------|------|------|
| 1 to 1½ ft..... | .50 | 4.50 |
| 1½ to 2 ft..... | .75 | 7.00 |
| 2 to 2½ ft..... | 1.00 | 9.00 |

Kolkwitzia amabilis

Beauty bush

One of the most popular new introductions. Long arching branches are covered with light pink flowers.

| | | |
|------------------|------|-------|
| 12 to 15 in..... | 1.25 | 11.00 |
| 1½ to 2 ft..... | 1.75 | 16.00 |
| 2 to 2½ ft..... | 2.50 | 22.50 |

Ligustrum amurense

Amoor River Privet

This has the upright form of the California Privet, but is perfectly hardy.

| | | | |
|-----------------------|-----|------|-------|
| 2 to 2½ ft. bushy... | .30 | 2.40 | 18.00 |
| 2½ to 3 ft. bushy... | .40 | 3.00 | 20.00 |
| 3 to 4 ft. bushy..... | .50 | 3.50 | 25.00 |
| 4 to 5 ft. bushy..... | .75 | 5.00 | 40.00 |

Ligustrum ibolium

A cross between California and Ibota, with bright green leaves. Hardy and vigorous.

| | | | |
|-----------------|-----|------|-------|
| 1½ to 2 ft..... | .20 | 1.50 | 12.00 |
| 2 to 2½ ft..... | .25 | 2.00 | 17.50 |
| 2½ to 3 ft..... | .40 | 3.00 | 22.00 |
| 3 to 4 ft..... | .50 | 4.00 | 26.00 |
| 4 to 5 ft..... | .65 | 5.00 | 40.00 |

Ligustrum ibota

Chinese Privet

A shrub of spreading habit and graceful form. Excellent for hedges or mass planting.

| | | | |
|-----------------|-----|------|-------|
| 2 to 2½ ft..... | .35 | 3.00 | 18.00 |
| 2½ to 3 ft..... | .40 | 3.50 | 20.00 |
| 3 to 3½ ft..... | .50 | 4.00 | 27.00 |

Ligustrum regelianum

Regel's Privet

The true spreading form. This makes a very attractive, low, spreading plant, with slender arched branches.

| | | | |
|-----------------------|-----|------|-------|
| 1½ to 2 ft. spread... | .50 | 4.50 | 34.00 |
| 2 to 2½ ft. spread... | .60 | 5.00 | 40.00 |
| 2½ to 3 ft. spread... | .70 | 6.00 | 45.00 |

Plants are like animals—they respond to good treatment.

| | | | |
|--|-------------------|------------------------|---------|
| Lonicera tatarica | | Pink Honeysuckle | |
| Shell-pink flowers in May are followed by red berries. These are nearly as showy as the flower and add a touch of color to the shrubby border. | | | |
| | Each | Per 10 | Per 100 |
| 2 to 3 ft..... | .50 | 4.50 | |
| 3 to 4 ft..... | .65 | 5.00 | |
| 4 to 8 ft. specimens.. | 1.00 to 5.00 each | | |
| Lonicera tatarica alba | | White Honeysuckle | |
| A white-flowered form of the above. | | | |
| 3 to 4 ft..... | .65 | 5.00 | |
| 5 to 10 ft. specimens. | 1.00 to 5.00 each | | |
| Philadelphus avalanche | | | |
| A dwarf form bearing a profusion of white flowers. | | | |
| 1½ to 2 ft..... | .60 | 5.00 | 38.00 |
| 2 ft..... | .75 | 6.50 | 42.00 |
| 3 ft..... | .90 | 8.00 | 60.00 |
| Philadelphus coronarius | | Mock Orange | |
| The old-fashioned, sweet-smelling "syringa". Pure white, blossoms in July. | | | |
| 2½ to 3 ft..... | .50 | 4.50 | 35.00 |
| 3 to 4 ft..... | .65 | 4.50 | 38.00 |
| 4 to 5 ft..... | .80 | 6.50 | 46.00 |
| 5 to 6 ft. heavy..... | 1.10 | 10.00 | |
| 6 to 10 ft. specimens. | 1.50 to 4.00 each | | |
| Philadelphus coronarius aurea | | Golden Syringa | |
| A dwarf form having brilliant foliage. | | | |
| 1½ to 2 ft..... | .90 | 8.50 | |
| 2 to 2½ ft..... | 1.15 | 10.00 | |
| 2½ to 3 ft..... | 1.35 | 12.00 | |
| 3 to 3½ ft..... | 1.50 | 13.50 | |
| Philadelphus coronarius grandiflorus | | Large-flowered Syringa | |
| 2 to 3 ft..... | .50 | 4.00 | |
| 5 to 6 ft..... | .90 | 8.00 | |
| 5 to 7 ft. specimens.. | 1.00 to 4.00 each | | |
| Philadelphus lemoinei | | | |
| A dwarf hybrid form of this excellent shrub. | | | |
| 2 to 2½ ft..... | .75 | 6.50 | |
| 2½ to 3 ft..... | .85 | 7.50 | |
| Philadelphus virginial | | Fragrant Syringa | |
| A variety recently introduced and wonderfully fragrant. | | | |
| 1 to 1½ ft..... | .60 | 5.00 | |
| 2 to 2½ ft..... | .90 | 8.00 | |
| 2½ to 3 ft..... | 1.10 | 9.50 | |
| 3 to 3½ ft..... | 1.25 | 10.00 | |
| Privet (See Ligustrum) | | | |
| Prunus triloba | | Flowering Plum | |
| A low shrub bearing soft pink flowers in May. | | | |
| 2 to 3 ft..... | .75 | 6.50 | |
| Rhodotypus kerrioides | | White Kerria | |
| A very attractive small shrub bearing single white flowers, followed by shining black berries. | | | |
| 2 to 2½ ft..... | .60 | 5.50 | |
| 2½ to 3 ft..... | .75 | 6.50 | |
| 3 to 4 ft..... | .90 | 8.00 | |

It costs no more to care for a good plant than a poor one.

Rhus canadensis

Fragrant Sumac

Plants of spreading habit with soft green leaves turning to scarlet with the frost.

| | Each | Per 10 | Per 100 |
|-----------------|------|--------|---------|
| 1½ to 2 ft..... | .80 | 7.00 | |
| 2 to 2½ ft..... | 1.00 | 9.00 | |
| 2½ to 3 ft..... | 1.15 | 10.00 | |
| 3 to 4 ft..... | 1.25 | 11.00 | |

Rhus glabra

Smooth Sumac

| | | | |
|----------------|-----|------|-------|
| 2 to 3 ft..... | .45 | 3.50 | 30.00 |
| 3 to 4 ft..... | .55 | 4.00 | 35.00 |
| 4 to 5 ft..... | .65 | 5.50 | |

Rhus typhina

Staghorn Sumac

| | | | |
|----------------|------|-------|--|
| 5 to 6 ft..... | .75 | 6.50 | |
| 6 to 7 ft..... | 1.00 | 8.50 | |
| 7 to 8 ft..... | 1.25 | 10.00 | |

Rosa rugosa (See "Various Roses")**Snowberry** (See *Symphoricarpos*)**Spiraea arguta**

Hybrid Snow Garland

Similar to the *thunbergi*, but a little faster grower and foliage a little larger.

| | | | |
|----------------------|-----|------|--|
| 1½ to 2 ft..... | .30 | 2.50 | |
| 2 to 2½ ft. bushy... | .40 | 3.50 | |
| 2½ to 3 ft. bushy... | .60 | 5.00 | |
| 3 to 3½ ft. bushy... | .75 | 6.00 | |

Spiraea bumalda anthony waterer

Waterer's Spirea

A dwarf type, bearing flat heads of deep pink from June to September.

| | | | |
|------------------|-----|------|--|
| 12 to 15 in..... | .40 | 3.00 | |
|------------------|-----|------|--|

Spiraea callosa alba

Dwarf White Spirea

A companion shrub of the above, bearing flowers similar except in color.

| | | | |
|-----------------|-----|------|--|
| 1½ to 2 ft..... | .50 | 4.50 | |
| 2 to 2½ ft..... | .60 | 5.50 | |

Spiraea rosea superba

Rose-colored Spirea

Similar to *S. anthony waterer* except that it is lighter in color and taller in growth.

| | | | |
|-----------------|-----|------|--|
| 2 to 3 ft..... | .60 | 4.50 | |
| 3½ to 4 ft..... | .90 | 8.00 | |

Spiraea trichocarpa

A new introduction bearing a profusion of snow-white flowers. Superior to *van houttei*.

| | | | |
|-----------------|------|-------|--|
| 3 to 3½ ft..... | 1.25 | 11.00 | |
| 3½ to 4 ft..... | 1.50 | 13.50 | |
| 4 to 5 ft..... | 1.75 | 16.00 | |

Spiraea van houttei

St. Peter's Wreath

One of the best for all-round purposes. The plant is hardy and vigorous and when in bloom in May is covered by masses of white flowers.

| | | | |
|-----------------|-----|------|-------|
| 2 to 2½ ft..... | .40 | 3.50 | 27.00 |
| 2½ to 3 ft..... | .55 | 4.50 | 35.00 |
| 3 to 4 ft..... | .60 | 5.00 | 36.00 |
| 4 to 5 ft..... | .75 | 6.50 | 45.00 |

Help the birds and they will help you to rid the garden of insects.

Symphoricarpus chenaulti

This recent introduction found popular favor at the Arnold Arboretum with its pink and white flowers in June and red berries later in the fall.

| | Each | Per 10 | Per 100 |
|------------------|------|--------|---------|
| 1½ to 2 ft. | .50 | 5.50 | |
| 2 to 3 ft. | 1.00 | 9.00 | |
| 3 to 4 ft. | 1.25 | 10.00 | |

Symphoricarpus racemosus

Snow Berry

The chief attraction of this shrub is its round white berries, borne in great profusion during the fall months.

| | | | |
|------------------|-----|------|--|
| 2 to 2½ ft. | .50 | 4.00 | |
| 2½ to 3 ft. | .60 | 5.00 | |
| 3 to 3½ ft. | .75 | 7.00 | |

Symphoricarpus vulgaris

Coral Berry

Bears clusters of small red berries in September.

| | | | |
|------------------|-----|------|--|
| 2 to 2½ ft. | .50 | 4.00 | |
| 2½ to 3 ft. | .60 | 5.00 | |

Syringa (See Philadelphus)**Syringa chinensis**

Chinese Lilac

Slender arching branches, with narrow leaves and bearing masses of small lavender flowers.

| | | | |
|-----------------|------|-------|--|
| 2 to 3 ft. | .90 | 8.50 | |
| 3 to 4 ft. | 1.35 | 12.00 | |
| 4 to 5 ft. | 1.75 | 16.50 | |

Syringa josikaea

Blue Lilac

Blooms later than the other Lilacs. Tall, strong stems and large heads of deep blue flowers.

| | | | |
|------------------------|------|--------|--|
| 2 to 3 ft. | 1.00 | 9.00 | |
| 5 to 8 ft. specimens.. | 3.00 | and up | |

Syringa persica

Persian Lilac

A fine foliaged variety with slender arched branches. Bears a profusion of beautiful small blue flowers and is very attractive.

| | | | |
|------------|------|-------|--|
| 3 ft. | 1.00 | 9.00 | |
| 4 ft. | 1.50 | 13.50 | |
| 5 ft. | 2.00 | 18.50 | |

Syringa persica alba

White Persian Lilac

Slender growth and small flowers of soft pinkish white in great profusion.

| | | | |
|-----------------|------|-------|--|
| 3 to 4 ft. | 1.25 | 11.50 | |
| 4 to 5 ft. | 1.75 | 16.50 | |

Syringa villosa

Japanese Lilac

Leaves large and very distinct [from other Lilacs. Blooms late in June.

| | | | |
|------------------------|------|--------|--|
| 2½ to 3 ft. | 1.00 | 9.00 | |
| 3 to 4 ft. | 1.25 | 11.00 | |
| 4 to 5 ft. | 1.50 | 13.00 | |
| 4 to 7 ft. specimens.. | 2.50 | and up | |

Syringa vulgaris

Common Purple Lilac

Our plants are strong and well rooted.

| | | | |

SINGLE VARIETIES

| | |
|--------------------|---|
| CHAS. X | Single reddish purple. |
| 3 to 5 ft. | |
| CONGO | A beautiful, lively deep red. |
| 2 and 2½ ft. | |
| FRAU BERTHA DAMMON | Extra large panicles of pure white. |
| 5 and 6 ft. | |
| HUGO KOSTER | Soft lilac, grows rather slowly. |
| 1½ and 3½ ft. | |
| LUDWIG SPAETH | An extra fine, deep purplish red. |
| 2 to 5 ft. | |
| MARIE LEGRAY | One of the finest of the whites. Large trusses. |
| 2 to 4 ft. | |
| JAN VAN TOL | Pure white. Both the individual flower and the panicle attain great size. |
| 1 ft. \$1.00 each | New. |
| 1½ ft. 1.50 each | |
| 2 ft. 2.00 each | |

DOUBLE VARIETIES

| | |
|---------------------|---|
| ALPHONSE LAVALLE | Very attractive shade of light purple. |
| 2 to 4 ft. | |
| BELLE DE NANCY | Bushy heads of soft rose-pink. One of the best of this color. |
| 2 to 4 ft. | |
| CHARLES JOLY | A beautiful shade of deep purplish red. |
| 2 to 3½ ft. | |
| MME. CASIMIR PERIER | A beautiful creamy white. |
| 2 to 4 ft. | |
| MME. LEMOINE | A delightful ivory white. |
| 2½ to 4½ ft. | Very free bloomer. |
| MICHAEL BUCHNER | A beautiful pinkish lilac. |
| 2 to 4 ft. | |
| PRESIDENT GREVY | Large panicles of a beautiful blue. |
| 2 to 5 ft. | |
| WILLIAM ROBINSON | Very large trusses of deep pinkish violet. |
| 2 to 3½ ft. | |

One to four plants of a single size and variety at the each rate: five to twenty-nine at the ten rate: thirty and up at the hundred rate when such a rate is given.

Hybrid Lilacs (continued)

Each Per 10 Per 100

The following hybrid lilacs we consider the best of the newer and rarer varieties and our stock consists of plants we have propagated on their own roots.

Prices are as follows:

| | | | |
|--------------------------|-----------|---|-----------|
| 1 ft. | 1.00 each | 2 ft. | 2.00 each |
| 1½ ft. | 1.50 each | 2½ ft. | 3.00 each |
| DUC DE MASSA | | Dbl., red violet buds | |
| 1 to 1½ ft. | | opening into large | |
| | | heads of reddish lavender flowers. | |
| JEAN MACE | | Dbl., large, broad | |
| 1½ to 2 ft. | | heads of pink tinted lavender. | |
| MME. FLORANT STEPMAN | | Single, broad full heads | |
| 1 to 1½ ft. | | of white, faintly | |
| 1½ to 2 ft. | | tinted cream at base. | |
| MARECHAL DE BASSOMPIERRE | | Dbl., reddish buds | |
| 1½ to 2 ft. | | turning to lavender. | |
| 2 to 2½ ft. | | Large flowers and panicles. | |
| MARC MICHELI | | Dbl., very large flowers | |
| 1 to 1½ ft. | | and heads. Pink | |
| 2 ft. | | buds and almost pure lavender flowers. | |
| MONTAIGNE | | Dbl., silvery pink buds | |
| 1 to 1½ ft. | | opening into pink | |
| 2 ft. | | lavender flowers. Exceptionally fine habit. | |
| PAUL HARIOT | | Deep purplish red. | |
| 1 to 1½ ft. | | Much the same color | |
| 1½ to 2 ft. | | as Ludwig Spaeth but double flowers. | |
| PAUL THIRION | | Dbl. delicate pink with | |
| 1 to 1½ ft. | | touches of lavender. | |
| 1½ to 2 ft. | | Very compact heads with exceptionally large flowers. Very distinct. | |

Viburnum carlesi

Fragrant Viburnum

Dwarf shrub, bearing beautiful pink and white flowers resembling the Arbutus both in color and fragrance.

| | |
|----------------|------|
| 12 in. | 2.00 |
| 15 in. | 2.50 |
| 18 in. | 3.00 |

Viburnum dentatum

Arrow-wood

A large-growing shrub bearing black berries in clusters.

| | | |
|------------------------|-------------------|------|
| 2 to 2½ ft. | .65 | 5.50 |
| 2½ to 3 ft. | .75 | 6.50 |
| 3 to 3½ ft. | .85 | 7.50 |
| 3½ to 4 ft. | 1.00 | 9.00 |
| 4 to 6 ft. specimens.. | 2.00 to 4.00 each | |

Have you tried the Mayflower plant—*Viburnum carlesi*?

Viburnum lantana Wayfaring Tree
White flowers followed by red fruit, changing to black.

| | Each | Per 10 | Per 100 |
|-----------------|------|--------|---------|
| 2 to 2½ ft..... | .65 | 6.00 | |
| 2½ to 3 ft..... | .85 | 7.50 | |
| 3 to 4 ft..... | 1.00 | 8.50 | |

Viburnum opulus Tree Cranberry
One of the showiest of this group. Large clusters of bright red berries are borne freely in the late summer and fall.

| | | |
|-----------------|------|------|
| 2 to 2½ ft..... | .75 | 6.50 |
| 2½ to 3 ft..... | .85 | 7.50 |
| 3 to 4 ft..... | 1.00 | 9.00 |

Viburnum tomentosum Single-flowered Snowball
of symmetrical growth. Large flat heads of white flowers appear in May.

| | | |
|------------------------|-------------------|-------|
| 2 to 2½ ft..... | .80 | 7.50 |
| 2½ to 3 ft..... | 1.00 | 9.00 |

VINES

| | |
|--|------------------|
| Actinidia arguta | Silversweet Vine |
| Very good as a foliage vine. Leaves medium size, of light green color, and fruit ripening to purple. | |

3 yr. strong..... 1.25 11.00

Akebia quinata

A five-leaved vine, bearing purple flowers and fruit.

A persistent grower for difficult locations.

3 yr..... .75

Ampelopsis quinquefolia American Woodbine

Strong plants, 2 yr... .50 3.50

Strong plants, 4 yr... .75 6.50

Ampelopsis quinquefolia engelmanni

Englemann's Woodbine

A form which clings to brick or stone much better than the above.

3 yr..... .60 5.00

Ampelopsis tricuspidata (veitchi) Boston Ivy

Our best vine for growing on brick and stone walls, as it will completely clothe them with a mass of beautiful dark green foliage.

2 yr. strong..... .60 5.50

3 yr. strong..... .75 7.00

4 yr. strong..... 1.00 9.00

Aristolochia sipho

Dutchman's Pipe

Excellent for a dense cover, as the broad leaves overlap and make a complete shade.

Strong vines, 3 yr. . . 1.25 11.50

Strong vines, 4 yr. . . 1.50 13.50

Strong vines, 5 yr. . . 1.75 16.00

Celastrus scandens

Bittersweet

Bears red and orange berries in the fall and early winter.

3 yr..... .75 6.50

4 yr..... .85 7.50

5 yr..... 1.00 8.50

6 yr..... 1.50 13.50

Hybrid clematis (potted) 1.50 13.50

HENRYI. Beautiful creamy white.

JACKMANI. Rich royal purple.

MME. BARON VELLARD. Soft pink.

RAMONA. Beautiful lavender.

Clematis paniculata

Japanese Clematis

A rapid-growing vine with masses of fragrant white flowers in August. Very hardy.

2 yr. strong..... .50 4.00

3 yr. strong..... .60 5.00

4 yr. strong..... .75 6.50

Our Pyramidal Arborvitae are the best ever.

Lonicera japonica halliana

Hall's Evergreen Honeysuckle

In partially protected places this vine will hold its foliage during the entire year. Fragrant blossoms occur through the summer.

FRUIT**APPLES**

No. 1, 11-16 in., 5 to 7 ft... 1.00 8.50 70.00

We can furnish apple trees in most varieties in 4 yr., 5 yr., 6 yr., at prices from \$1.50 to \$3.00.

SUMMER VARIETIES

Red Astrachan—Large, deep red, juicy, slightly acid.

Sweet Bough—Large, yellowish green, very sweet and juicy.

Duchess—Good size, striped yellow and red, fine flavor.

FALL VARIETIES

Cortland—A new hybrid introduction excelling even the McIntosh in color, flavor and keeping qualities.

Gravenstein—Large size, striped yellow and red, extra fine.

McIntosh—Dark red, good size, flesh white, extra nice.

Wealthy—Good size, medium red, good eater and cooker.

WINTER VARIETIES

Baldwin—Large, red and yellow, most popular winter apple.

Delicious—Dark red, very choice eating apple.

Northern Spy—Red and yellow striped, very juicy.

R. I. Greening—Large, green, fine for baking and cooking.

Roxbury Russet—Rich, golden, great keeper, fine flavor.

Transcendent Crab—Bright red and yellow, considered the very best for jelly.

PEARS

| | Each | Per 10 | Per 100 |
|--|------|--------|---------|
| No. 1, 11-16 in., 5 to 7 ft. . . | 1.00 | 8.50 | |
| 3 and 4 yr. trees, \$1.50 to \$2.00 each. | | | |
| Bartlett —Summer. Extra choice. | | | |
| Clapp's Favorite —Early. Good eater. | | | |
| Seckel —Fall. Small, but sweet as honey. | | | |
| Sheldon —Fall. Large and delicious. | | | |
| Beurre Bosc —A very late variety of deep russet color and of honey sweetness. \$1.25 each. 2-year only. | | | |

PEACHES

| | Each | Per 10 | Per 100 |

We have for sale a number of large apple trees, growing in our demonstration orchard, which we can supply to customers wanting something for immediate show. These trees are from 12 to 15 feet high and equally broad. Varieties are Baldwin — Duchess — Early Williams — McIntosh — Wagner — Wealthy.

ROSES

These lovely flowers are so well known that there is no need of description, but the list of varieties is confusing and we have endeavored to make a selection of those which are the most satisfactory for vigor and freedom of bloom when planted in the garden. We have included many of the new varieties, but only those which have been tested for hardiness in our climate.

The hybrid tea Roses have largely supplanted the older, so-called hardy garden varieties, as they give a much greater number of blossoms over practically the entire season.

Roses do best in fairly heavy clay soil, but should have proper drainage. When making a bed it is a good plan to use some well-rotted stable manure, taking care to keep it from direct contact with the roots.

Nearly all the hybrid Roses are budded on some other stock, as treated in this way they bloom more freely and the plants should be put in deep enough so that the union, shown by the crook in the stem, is two or three inches below the surface. Dormant plants should be pruned back to six or eight inches from the ground and kept well watered for two or three weeks until the buds start. It is a good plan to cover them from the sun's rays for a few days to prevent evaporation of the sap. Nearly all losses in transplanting Roses are due to lack of moisture at this time.

For winter protection the plants may be dug and buried entirely, or earth may be heaped up around them and a coarse mulch spread over the top to prevent freezing and thawing during the winter. In the spring level the ground and prune the plants back to four or five buds and give them a liberal application of fertilizer, such as pulverized sheep manure. The plants will respond to this treatment and bear an abundance of flowers.

Unless advised to the contrary, whenever our stock of a variety is exhausted, we will make a substitution as near to color and habit as we can.

HYBRID TEA OR EVER-BLOOMING ROSES

These will give an abundance of bloom from June until frost. They should be liberally fertilized every year and well watered throughout the blooming season.

| | | |
|------------------------------|------|--------|
| | Each | Per 10 |
| Strong 2-year plants | 1.00 | 9.00 |

Briarcliff—Well-shaped flowers of silvery pink.

Charles K. Douglas—Crimson-scarlet which does not fade. Blooms throughout the season.

Columbia—Blooms freely, producing pointed buds of warm pink.

Crusader—Bright crimson flowers borne singly. Stems strong, making it a fine rose for cutting.

Duchess of Wellington—Beautiful pointed buds of saffron-yellow stained with crimson.

Etoile de France—Good-sized flowers of rich crimson.

Golden Emblem—Golden yellow blooms and glossy green foliage.

Gruss an Teplitz—Bright crimson, flowers not large but borne in great profusion throughout the summer.

Joanna Hill—New. Large lemon yellow buds opening into creamy yellow, with reddish lights at base of petals. Sometimes described as a glorified Mrs. Aaron Ward. \$1.50 each.

K. A. Victoria—Well-formed, pointed buds of creamy white. One of the most satisfactory varieties.

Killarney—Soft pink. Pointed buds and well-shaped flowers.

Killarney Brilliant—Brilliant carmine pink. Very effective.

Killarney Queen—Bright pink. Vigorous and very free flowering.

La France—Silvery pink, large full flowers.

Los Angeles—Intense flame-pink with golden lights. A very popular variety.

Mme. Butterfly—Bright shell-pink with golden lights. Blooms especially well during a cool season.

Mme. Caroline Testout—Satiny rose, free flowering.

Mme. Edouard Herriot—Coral red with golden lights. It should be in every garden.

Mrs. Aaron Ward—Dwarf growth, beautiful buds and flowers of fine yellow.

Ophelia—Delicate salmon flesh with deeper rose tints.

Padre—Semi-double flowers of brilliant coppery orange.

President Herbert Hoover—A new rose which has attracted much attention. Blends of soft pink, orange and gold are most attractive. \$2. each.

Radiance—Rose pink flowers of globular shape. Plant vigorous and hardy.

Red Radiance—A variety of the above having rosy red flowers.

Souvenir de Claudius Pernet—Deep yellow, the open flowers hold their color until the petals fall.

Sunburst—Rich yellow with deeper copper colored lights.

Talisman—Golden yellow petals lined with orange red. Especially effective when in bud. With us it has bloomed freely and continuously. \$1.50 each. \$12.50 per 10.

Templar—Dark glowing crimson that does not fade. Flowers freely.

Willowmere—Beautiful pointed buds and pink flowers with golden lights. Blossoms freely and grows vigorously.

HYBRID PERPETUAL OR JUNE- BLOOMING ROSES

| | Each | Per 10 |
|--|------|--------|
| Strong 2-year plants | 1.00 | 9.00 |
| Anna de Diesbach —Dark crimson. | | |
| Frau Karl Druschki —Pure white, large flowers. | | |
| Gen. Jacqueminot —The well-known deep crimson. | | |
| Margaret Dickson —Full flowers of creamy white. | | |
| Paul Neyron —Deep rose pink, large and well formed. | | |
| Ulrich Brunner —Globular flowers of cherry red. | | |

CLIMBING AND RAMBLER ROSES

| | | |
|--|-----|------|
| Strong 2-year plants | .75 | 6.50 |
| Alida Lovett —Very fine shell pink flowers of large size. Of vigorous, rapid growth. | | |
| Aviateur Bleriot —Buds of deep saffron yellow changing to pale yellow. Needs some protection in winter. | | |
| Climbing American Beauty —Rich carmine rose, very attractive. | | |
| Dr. W. van Fleet —Shell-pink flowers of large size, equalling in form a tea rose. One of the most popular of climbing roses. | | |
| Dorothy Perkins —An extremely vigorous, hardy rose. Double flowers of deep shell-pink in great abundance. | | |
| Excelsa —We offer this instead of the well-known Crimson Rambler, as we believe it to be superior in hardness and permanence of color. | | |
| Gardenia —Yellow buds and creamy yellow flowers. Dark glossy green foliage and strong growth. | | |
| Hiawatha —Single flowers of deep red with golden centers. | | |
| Mary Lovett —Large, pure white flowers and vigorous growth. Considered by many to be the best white Rambler. | | |
| Mary Wallace —Like Mary Lovett a seedling originated by Dr. van Fleet. Beautiful shell-pink flowers borne on long stems make this variety very desirable for cut flowers. We can also offer Extra strong 4 and 5-year plants \$2. to \$4. each. | | |
| Paul's Scarlet Climber —The best new crimson Rambler. Holds its bright color until the petals fall. | | |
| Primrose —New. A hardy climbing rose producing double canary-yellow flowers which do not fade white. Considered the best yellow for the North. \$1.50 each. | | |
| Setigera —The Prairie Rose. Very strong, bushy growth, suitable for hedges and screens. Flowers are pale pink and single in form. | | |
| Silver Moon —A climbing rose with dark green, glossy foliage. Large single flowers of pure white. | | |
| Tausendschon —Double flowers of delicate pink, borne on stiff canes of the Rambler type. | | |

Ninety-nine years of Horticultural Experience at Your
Disposal.

Wichuriana—Memorial Rose. Glossy green foliage is borne on twining or creeping stems. Single flowers of white or pale pink. Good for ground covers.

VARIOUS ROSES

- | | Each | Per 10 |
|---|------|--------|
| Baby Rambler —Red, White, Pink. Dwarf bushy plants which bloom profusely and continuously throughout the season. Very good for the border of a rose bed. The individual flowers are double in form, resembling the ordinary ramblers. | | |
| | 1.00 | 9.00 |
| Hugonis —Charming soft yellow single flowers in profusion in early June. Makes a large shrub for the border or as a specimen plant. | | |
| Strong 2-year plants..... | 1.00 | 9.00 |
| Harison's Yellow —A bright yellow shrub rose blossoming in the spring. Hardy and vigorous. | | |
| | 1.00 | 9.00 |
| Persian Yellow —The old-fashioned double yellow rose, blooming in early summer | 1.00 | 9.00 |
| Rosa Rugosa (Japanese Rose)—A very useful and ornamental spreading shrub with glossy green foliage untroubled by fungus or insects. Single crimson flowers followed by ornamental scarlet fruit. Good for seashore or other exposed plantings. | | |
| 1 to 1½ ft..... | .45 | 4.00 |
| 1½ to 2 ft..... | .55 | 4.50 |
| 2 to 2½ ft..... | .65 | 5.50 |
| Rosa Rugosa Alba (White Japanese Rose) | | |
| 1½ to 2 ft..... | .65 | 5.50 |
| 2 to 2½ ft..... | .80 | 7.00 |
| Rosa Rugosa Hybrids —These are new hybrids having the splendid foliage and habits of the rugosa. Perfectly hardy. | | |
| Strong plants..... | 1.00 | 9.00 |
| Belle Poitevine —Bright pink, full double flowers. | | |
| Conrad F. Meyer —Silvery pink flowers of good size. | | |
| Hansa —Double, rich maroon red. Very attractive both in bud and bloom. | | |
| Sir Thomas Lipton —Clusters of pure white double flowers. | | |
| F. J. Grootendorst —A hybrid between Rugosa and Baby Rambler, it has the foliage of the former and the free flowering habit of the latter. Small double crimson flowers throughout the season. | | |
| Pink Grootendorst —New. A form of the above with bright shell-pink flowers of a very attractive shade. Blooms freely and continuously. \$1.25 each. \$10. per 10. | | |

All stock is freshly dug for individual orders.

PART II

PEONIES AND PERENNIALS

Garden owners have always known the health and contentment which is to be gained from actual working among growing plants. There is a fascination in watching the buds expand and produce leaves or flowers, urged on by some mysterious power and we feel that we are partners with Nature when we help and direct that growth. Perennials are oftentimes the most interesting, for it is hard to visualize that some brown, dormant root will, one day, put forth a strong stem and glorious flower. But the faith that this will happen may give us hope in our darkest moments and we grow to love our garden. The modern trend toward "outdoor living rooms" is an appreciation of the health and enjoyment to be gained by living more in the sunlight, and perennials lend their interesting growth and gay color to the enhancement of these gardens.

PEONIES

This is one of the most dependable and hardy of the perennials and, once established, will give masses of color every year. It does not like transplanting too often and a clump will many times continue to bloom for fifteen or twenty years. Many old clumps are known to have been growing and flowering for seventy-five years. Peonies may be planted almost any time of the year but are usually planted in the fall, from September to November and early in the spring, before the new growth starts too much.

A good garden soil will suit these hardy plants and while they will respond to fertilizer, we would caution against too heavy fertilization at one time, especially with stable manure. Bone meal and hard wood ashes are always good.

The roots should be planted so that the buds are about two inches below the surface when the ground has settled around them. Too deep planting will result in good foliage but no blooms, in fact this is almost always the cause for lack of blooms.

The diseases of Peonies are very few — the two chief ones are root knot and "botrytis" or blight. Both seem to be due in some part to improper fertilization, usually overfeeding with stable manure. This has a tendency to invite a fungus which wilts the flower buds and stems. The wilted parts should be removed and burned and the plants should have a treatment of slaked lime. Bordeaux mixture, sprayed on the ground early in the spring, is also recommended.

Do not divide your plants too often. It is a great temptation to lift a valuable or rare Peony and divide it every year or two, but if this is done the plants will be weakened and take a long time to recover. We choose for our increase, plants three or four years old

and the individual plants which show the strongest growth and greatest bloom. In this way we have built up the Cherry Hill Strain. It is from these plants that we have produced, without using any artificial means, the flowers which have taken gold medals at the American Peony Society shows in Detroit, Boston, and London, Ontario.

The American Peony Society was founded in 1903 and the membership of nearly a thousand consists, for the most part, of amateur garden lovers. The Society has published a Peony Manual which gives a complete list of the varieties in active commerce, full descriptions of all varieties rating 8.0 or higher, and much other valuable and interesting information. The charges have been reduced to \$3.00 per copy and may be obtained from the Secretary, W. F. Christman, Northbrook, Ill. The annual dues to the Society are \$3.00 per year and members receive yearly four bulletins giving the latest information on the Peony.

Peony exhibit which won President's Cup and Large Gold Medal of Massachusetts Horticultural Society, Boston, 1930.

SERIES A

Probably everyone who has a Peony garden has planted some seeds hoping to secure new varieties which will be superior to those now known. The road is long and attended with many discouragements and the rewards are not sure but the thrill of achievement is all the greater on this account.

At Cherry Hill we have been growing seedlings for many years, selecting the seed from the finest varieties which could be procured in this country and Europe. When the new plants bloomed they were carefully checked and any that showed promise of being distinct from already named varieties were planted by themselves for further observation. The selection was constantly narrowed until a very few have been offered.

These varieties, listed in this series, are of uniformly high quality all rating 8.5 or over and as we introduce other new ones we will endeavor to maintain this high standard. Our policy of reducing prices as fast as we can furnish first quality stock is followed in this series as in the others.

We are continuing to offer one year plants as we have found this to be the most satisfactory size when one wishes a garden in bloom the first year. We also offer large divisions (L. D.) at lower prices. These will show excellent growth but, of course, are a year behind the larger plants.

PEONIES

A. P. Saunders (1919), large flesh-pink flowers, 8.6 shaded to nearly white in the center, outer petals sometimes marked carmine. The long petals unfold from a slowly loosening ball in the center until they finally make a rose form flower. Slightly fragrant. Late. L. D.\$7.50. 1 yr. \$10.00.

Betty Blosson (1925), lovely white guard petals 8.9 faintly tinted yellow and center petals clear white intermixed with a collar of short, narrow stamenoides heavily edged yellow. This yellow light is reflected through the flower giving a total effect of charming soft yellow. Late mid-season. Cert. of Merit, A. P. S. 1923. L. D. \$10. 1 yr. \$12.50.

Black Prince (1915), single. Very deep crimson with a 8.5 dull satiny sheen and a mass of golden stamens. If the side buds are not cut off the plant will continue to flower for a considerable period. Medium height and stiff stems with excellent foliage. L. D. \$2.25. 1 yr. \$3.

Our peonies are usually at their best during mid-June.

Cherry Hill (1915), deep garnet with a sheen which 8.6 gives a very bright appearance in the garden. Some blooms will have a center of golden stamens while well established plants often produce full double flowers. With us the earliest double variety in bloom. The tall, strong stems with excellent foliage make this a very attractive variety for the garden. L. D. \$3. 1 yr. \$4.

Edwin C. Shaw (1919), very large flowers of flesh 9.1 pink with broad rounded petals with occasional traces of red on outer edges. Of very symmetrical form and cupped shape, this variety is especially attractive both for cut flowers and for garden effects. Delicious fragrance. Late midseason. L. D. \$12. 1 yr. \$16.

Governor Fuller (1930), large, globular flowers of fresh shell pink shading somewhat deeper toward the center. Petals long and broad and well rounded, except those in the center which are much shorter, giving a delightful cupped effect. Strong stems and good foliage. Fragrant. Late. Like many of the best varieties this needs a year or two to become established to give the best flowers. L. D. \$25. 1 yr. \$35.

Helen (1922), stems very tall and erect and broad, 9.0 dark green foliage. A double row of broad rounded petals of deep shell pink surround a mass of golden stamens. The petals are of good substance and hold their attractive cup shape without drooping. The earliest to bloom and the highest rated of the single flowered peonies. \$15. each.

James Boyd (1919), flesh pink, tinted cream and buff 8.9 in center gradually changing to nearly white with golden lights at the base of the petals. Very fragrant. Late. Stiff stems and upright habit with good foliage. L. D. \$4. 1 yr. \$6.

James R. Mann (1920), large, rose pink with one or 8.7 two crimson streaks in the center of the flower and an occasional marking on back of guard petals. Central petals incurved, give a very graceful effect. Midseason. Plants need to become well established before producing the best flowers. L. D. \$5. 1 yr. \$8.

Katharine Havemeyer (1921), large blooms of light 9.0 rose pink. Guard petals rounded, somewhat notched at the ends, full, high center. The center petals are incurved, giving the flower a perfect rosebud center. Fragrant. Midseason to late. Excellent both for cut flowers and garden use. Hon. Mention A. P. S. 1922. L. D. \$12. 1 yr. \$16.

Cherry Hill plants grow—try them.

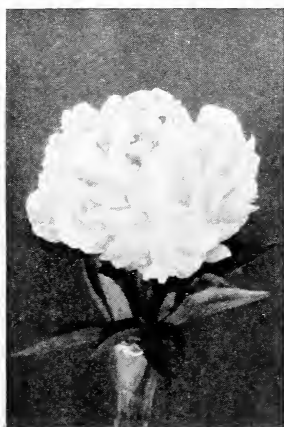

Nymphaea (1919), large, flat flowers with wide silky 8.8 petals of creamy white. Yellow stamens are mixed among the petals giving flower a reflex of golden light. The edges of the petals are somewhat rolled giving a water lily effect—hence its name. Mildly fragrant. Midseason. L. D. S2. 1 yr. S3.

President Wilson (1918), bright rose-pink changing 9.3 to shell pink as flower opens, petals broad and overlapping, with cupped center. The blooms will last a long time and hold their delicate coloring until the end. Spicy fragrance. Late. Described by Mr. Boyd in the Peony Manual as "a perfect beauty". Hon. Mention A. P. S. 1922. L. D. S18. 1 yr. S25.

Pride of Essex (1916), large, cup-shaped blooms of 8.9 deep shell pink suffused yellow from the stamens interspersed with the petals. Clear fragrance. Midseason. Similar in coloring and habit to Lady Alexandra Duff but flowers are larger and borne on longer stems. L. D. S2. 1 yr. S3.

Sarah K. Thurlow (1921), large flowers of faint pink 9.1 in bud changing to pearly white, flushed pink in the center. The petals are rounded giving a "finished" effect to the blooms which is difficult to describe. The stems are long and slender but support the flowers well. Rose fragrance. Very late. L. D. S10. 1 yr. S15.

Thomas C. Thurlow (1919). This is another variety 9.1 of elusive coloring. The flowers are not at their best until the plant is well established. Broad petals of salmon flesh changing to white and lighted by narrow petals edged and crusted with yellow. Strong stems of medium height. Fragrant. Midseason. L. D. S15. 1 yr. S20.

Governor Fuller

Sarah K. Thurlow

SERIES B

Prices quoted are for large divisions (L. D.) which are strong divisions of at least three to five buds, and one year (1 yr.) plants. These latter are divisions grown in our nurseries for a year or, in a few cases, some very large divisions which have a sufficient root growth to withstand the shock of transplanting. The one year and larger plants will usually bloom and give a good garden effect the first season.

For two-year clumps add 50 per cent to one-year price.

Three-year clumps at double the price of one-year plants.

For many years we have made a practise of obtaining all the worth-while novelties in this country and Europe. In this series you will find listed many of the newest introductions as well as the finest of the older varieties. Others will be offered from time to time after we have tested them. When we find one which is worthy we propagate it in quantity so that the price may be reduced but we will not do this at the expense of the quality. We endeavor to select for propagation individual plants of outstanding quality thus building up a strain having vigor, hardiness and free blooming qualities which will produce the finest flowers. We are pleased to call this the Cherry Hill Strain and as such, we offer them in the following pages.

*Varieties marked with an asterisk. If you are not well acquainted with the many varieties you may find it difficult to select from the list those having distinct qualities. We have indicated the most popular varieties in the different price classes and you will find these all well tested and satisfactory.

Addielanchea (Brand 1907), large, rather flat flowers 8.8 of creamy white with a golden light at base of petals. Midseason. L. D. \$5. 1 yr. \$7.

Albert Crousse (Crousse 1893), large, well-formed 8.6 flowers of soft shell-pink with faint salmon tints.

* Stems tall and strong and a vigorous grower. Very fine as a cut flower. Late. L. D. \$1.50. 1 yr. \$2.

Alice Harding (Lemoine 1922), large flowers with 9.5 broad rounded guard petals of delicate pink and center petals of creamy white. Fragrant. Mid-season. Good form and habit of growth. It is said Lemoine considers this his best introduction. \$50. each.

Alsace Lorraine (Lemoine 1906), pointed white 8.8 petals suffused with a golden light from the

* stamens make this a charming variety, giving one the thought of a water-lily. Tall and vigorous. Late. L. D. \$1.50. 1 yr. \$2.

Argentine (Lemoine 1924), large globular flowers, 8.6 white with creamy center. Broad petals of good substance. Fragrant. Midseason. \$25. each.

We find the hidden treasure in a garden by working for it.

Auguste Dessert (Dessert 1920), flowers of rose form 8.7 with broad, rounded petals somewhat notched, bright rose-pink with silvery edges. A center and ring of golden stamens light up the flower so that it is bright and attractive. Odor rather unpleasant. Strong, upright stems and good foliage. Midseason. L. D. \$5. 1 yr. \$6.50.

Baroness Schroeder (Kelway 1899), one of the best 9.0 and most satisfactory white peonies. Immense * globular flowers, white guard petals, and a soft baby-pink center becoming pure white. Stems very strong and vigorous, medium green foliage. Late midseason. L. D. \$1.50. 1 yr. \$2.

Blanche King (Brand 1922), very attractive globular flowers with large overlapping petals. Dark pink with a silvery sheen. Stiff stems and upright habit. Late midseason. \$50. each.

Candeur (Dessert 1920), bright rose-pink with petals 8.4 edged white, giving a total effect of silvery pink. Well-formed flowers and a fine garden variety. Midseason. Strong grower and blooms freely. L. D. \$2.50. 1 yr. \$3.50.

Chestine Gowdy (Brand 1913), shell-pink with 8.4 cream colored collar. L. D. \$1.50. 1 yr. \$2.

Clemenceau (Dessert 1920), broad guard petals, 8.5 collar narrower, center petals broad with extreme center very short and narrow. Silvery rose-pink flowers of globular form and large size. Late. L. D. \$2.50. 1 yr. \$3.50.

Cornelia Shaylor (Shaylor 1917), a full, well-formed 9.1 flower of pyramidal shape; guard petals and collar of a faint pink, softening to white, and deeper shell-pink center. An extra good variety. L. D. \$7.50. 1 yr. \$10.

Coronation (Kelway 1902), delicately tinted buds 8.5 opening into creamy white flowers, back of guard petals very pale pink. Base of petals show golden light and the symmetrical blooms are very charming. Late midseason. L. D. \$2. 1 yr. \$3.

Denise (Lemoine 1924), large, flowers of white faintly tinted pink with occasional marks of crimson on center petals. Fragrant. Strong upright stems. \$15. each.

E. J. Shaylor (Shaylor 1918), globular, compact 8.7 bloom of rose-pink, petals tipped lighter. This variety is very distinct because of the ring of golden edged and golden tipped petals. Strong upright stems of medium height. Midseason to late. L. D. \$4.50. 1 yr. \$6.

E. B. Browning (Brand 1907), delicate pink bud, 9.2 opening into a very fine white flower of large size. Late. L. D. \$3. 1 yr. \$4.50.

In May when "the country is all like a garden."

Elisa (Dessert 1922), large flowers of soft flesh-pink of 8.5 semi-double form. Stamens mixed among the petals give golden lights. Strong, erect stems make this a good garden variety. Pleasant fragrance. Midseason. L. D. \$6. 1 yr. \$7.50.

Elwood Pleas (Pleas 1900), very large, flat flowers of 8.7 a very delicate pink or white tinted pink. A strong grower. Midseason. L. D. \$1.50. 1 yr. \$2.50.

Enchanteresse (Lemoine 1903), large globular flow- 8.9 ers of creamy white, sometimes showing flecks of
* carmine. A tall, strong grower and exceptionally fine variety. Late. L. D. \$3.50. 1 yr. \$5.

Etta (Terry 1904), exceptionally large, semi-flat 8.0 flowers of a very fine shade of shell-pink. Rather weak stems. We consider this one of Terry's best. Very late. L. D. \$1.50. 1 yr. \$2.50.

Eugene Bigot (Dessert 1894), a very fine brilliant 8.3 crimson, of upright habit and medium height.
* One of the most conspicuous of this color. Late midseason. L. D. \$1.50. 1 yr. \$2.

Eugene Verdier (Calot 1864), rather dwarf with very 8.3 stiff stems bearing flowers of deep shell-pink
* intermixed with creamy yellow. Distinct. Late. L. D. \$2. 1 yr. \$2.50.

Eunice Shaylor (Shaylor 1919), globular blooms of 8.9 ivory white, outer petals slightly flushed pink. Some stamens are present, giving a golden light over the flower. Midseason. L. D. \$2. 1 yr. \$3.50.

Florence Macbeth (Sass 1924), immense rather flat 9.2 flowers of soft blush with deeper lights. Late. First Class Certificate, American Peony Society, 1924. L. D. \$20. 1 yr. \$25.

Display awarded Centennial Gold Medal of the Massachusetts Horticultural Society, Boston, 1929.

Frances Shaylor (Shaylor 1916), globular flowers of
8.6 iridescent white petals interspersed with incurved
yellow stamenoids. A very distinct gold and white
variety. Dwarf plant. Midseason. L. D. \$2.50.
1 yr. \$4.

Frances Willard (Brand 1907), tall, strong grower,
9.1 producing creamy white flowers of large size yet
* delicate texture. Late midseason. We consider this
one of the best of the Brand varieties. L. D.
\$2. 1 yr. \$3.50.

Frankie Curtis (Vories 1924), strong, stiff stems
9.3 bearing large white flowers resembling chrysanthemums—that is the center petals are incurved and the outer petals recurved. Midseason. Might be described as a white M. Jules Elie. A distinct addition. L. D. \$25. 1 yr. \$35.

Galathee (Lemoine 1900), large compact, globular
8.1 flowers of pearly white, borne on long stems. Very late, but opens well and is a superb flower. L. D. \$2.50. 1 yr. \$4.

Genevieve (Lemoine 1925), very large, full flowers of creamy white. Very late. \$20. each.

Georgiana Shaylor (Shaylor 1908), exceptionally
8.9 large, flat flowers of pale rose-pink with an occasional crimson fleck. Dwarf but sturdy habit. Midseason to late. We consider this one of the best of Mr. Shaylor's seedlings. L. D. \$1.50. 1 yr. \$2.00.

Gismonda (Crousse 1895), full double flowers of
8.2 creamy white with a rosy light deepening toward the center. Fragrant. Late. A very charming variety. L. D. \$1.50. 1 yr. \$2.

Grace Loomis (Saunders 1920), tall, strong stems,
9.2 bearing very full double flowers of clear white. Late. A fine variety. L. D. \$12. 1 yr. \$15.

Grandiflora (Richardson 1883), exceptionally large,
8.8 very flat flowers of silvery, shell-pink. Petals very
* pointed, giving a very pretty effect. Very late. Extra. L. D. \$1.50. 1 yr. \$2.

Grover Cleveland (Terry 1904), fine, dark crimson
8.2 blooms on upright stems of medium height.
* Extra good for garden effects. Late. L. D. \$1.50. 1 yr. \$2.

H. A. Hagen (Richardson 1904), well formed, cup
8.2 shaped flowers with broad rounded petals of deep rose pink. Strong stems and good foliage. Late. This variety somewhat resembles E. G. Hill but is a much better grower and blooms more freely. L. D. \$1.50. 1 yr. \$2.

Hansina Brand (Brand 1925), large flat flowers of
9.1 deep shell pink with salmon lights at base of petals. Strong, upright stems and good foliage. \$50. each.

Rhododendrons and Kalmias are at their best in early June.

Hazel Kinney (Brand 1925), delicate flesh-pink 9.0 flowers with broad over-lapping petals. Strong stems of medium height. Midseason. \$50. each.

Henry Avery (Brand 1907), flushed white guard 8.8 petals and center, and wide collar of yellow petals. "Accidental" markings of yellow and green in the center. Fine for garden effect. Very fragrant. L. D. \$3.50. 1 yr. \$5.

Inspecteur Lavergne (Doriat 1924), broad guard 8.5 petals with narrower petals in the center. Color, crimson with a touch of brown, quite new in any Peony. Early. \$15. each.

James Kelway (Kelway 1900), exquisite white with a 8.7 golden glow at base of petal. Sometimes semi-double. Very tall and strong and very fragrant. Early midseason. L. D. \$1.50. 1 yr. \$2.

Jeannot (Dessert 1918), cup shaped flowers of soft 9.2 shell-pink slightly tinted lavender with salmon-pink lights at base of petals. Very late. L. D. \$6. 1 yr. \$8.

Jessie Shaylor (Shaylor 1916), large, rather flat 8.6 flowers of a delicate shade of deep cream with a reflex light much like that of a tea rose. Fragrant. Midseason. L. D. \$2. 1 yr. \$3.50.

John Richardson (Richardson 1904), large flat 8.2 flowers, center deep pink, gradually fading lighter towards the tips of the petals. Tall grower. Fragrant. Considered by many to be one of the best very late varieties. L. D. \$1.50. 1 yr. \$2.

Jubilee (Pleas 1908), extremely large flat flowers of 8.9 ivory white, petals long and narrow and arranged loosely, giving a feathery effect. Stems long but weak. Midseason. L. D. \$1.50. 1 yr. \$2.

Judge Berry (Brand 1907), very large flat blooms of 8.6 soft pink tinted lighter. Very early. L. D. \$3. 1 yr. \$4.50.

June Day (Franklin 1920), large full flowers of shell-pink 9.0 deepening toward the centre. Good form and substance and an exceptionally fine variety. Midseason. L. D. \$8. 1 yr. \$10.

Karl Rosenfield (Rosenfield 1908), brilliant dark 8.8 crimson; of good form and substance. Stems stiff. * Medium height. One of our best of this color. L. D. \$1.50. 1 yr. \$2.

Kelway's Glorious (Kelway 1909), buds slightly 9.8 tinted pink, opening into large blossoms of * iridescent white. Fragrant. Late midseason. This is undoubtedly one of the finest peonies. L. D. \$8. 1 yr. \$10.

Kelway's Queen (Kelway 1909). The true variety. 8.8 Large, globular blooms of fine form and habit. Deep flesh-pink, with a few markings of carmine in the center. Fragrant. Midseason. L. D. \$10. 1 yr. \$12.50.

Cut your old peony blossoms off when they are through blooming.

- Lady Alexandra Duff** (Kelway 1902), this variety is
9.1 one of the finest of the Kelway productions. Very
* broad petals of soft blush pink, with flesh tints.
Height medium and stems upright. The true
variety is a strong grower in every way. Mid-
season. L. D. \$2. 1 yr. \$3.
- La Fee** (Lemoine 1906), globular flowers of rose-pink
9.2 with a silvery light and narrow creamy yellow
collar. Tall wiry stems. Fragrant and early. L.
D. \$7.50. 1 yr. \$10.
- La France** (Lemoine 1901), enormous, rather flat
9.0 flowers on strong stems. Soft pink, with lavender
* lights at base of petals. Late. A very fine variety.
L. D. \$4. 1 yr. \$5.50.
- La Lorraine** (Lemoine 1901), wonderful globular
8.6 blooms of creamy white, borne high above the
* foliage. Some golden stamens are visible, giving a
golden light to the open flowers. Stock limited.
Midseason to late. L. D. \$3.50. 1 yr. \$5.
- Lamartine** (Lemoine 1908), full, evenly formed
8.4 bloom of carmine, ends of petals tipped white.
Strong stems. Late. L. D. \$2. 1 yr. \$3.50.
- La Perle** (Crousse 1886). The true variety is a charm-
8.5 ing flower. Blush-white in center, growing darker
* toward the edge. Fragrant. Late. L. D. \$1.50.
1 yr. \$2.
- Laura Dessert** (Dessert 1913), creamy white guard
8.8 petals deepening to a canary yellow in center.
* The flowers are of good size. Midseason. This is
very similar to Primevere but established plants
will usually give better flowers. L. D. \$3.50.
1 yr. \$5.
- Le Cygne** (Lemoine 1907), charming milk-white
9.9 flower with incurved petals. Oftentimes attains
* immense size but of such exquisite form that it
does not appear coarse. Generally considered the
finest white peony. Midseason. L. D. \$8.
1 yr. \$10.
- Lillian Gumm** (Gumm 1921), immense, very full
8.8 double blooms of even rose-pink with more
brilliant lights at base of petals. The stems are
strong and this variety makes a fine effect in the
garden in late midseason. L. D. \$8. 1 yr. \$10.
- Longfellow** (Brand 1907), brilliant cherry red flower
9.0 of large size. Good reds are hard to find and this
* is a very satisfactory one. L. D. \$2.50. 1 yr.
\$4.
- Loveliness** (Hollis 1907), large flat, very full flowers
8.8 of light pink tinted lavender. Stem strong and
upright. Late. L. D. \$2. 1 yr. \$3.

We can transform unsightly grounds into spots of beauty
almost over night.

Lucy Shaylor (Shaylor 1920), pearly-white petals
9.0 deepening to deep cream or light yellow toward
the center. L. D. S8. 1 yr. S10.

Luella Shaylor (Shaylor 1917), a very fine white.
Center ribs of petals are yellow, giving a total
effect of a creamy yellow center. Midseason.
L. D. S8. 1 yr. S10.

Mabel Franklin (Franklin 1920), pale pink gradually
9.0 deepening toward the center. Extreme center
composed of short creamy petals with lavender
tints. Fragrant. Midseason. L. D. S6. 1 yr.
S8.

Madame D. Treyeran (Dessert 1899), delicately
8.2 tinted white petals, dotted and splashed with
lilac. A free bloomer and very fragrant. Early.
L. D. S1.50. 1 yr. S2.

Madame Jules Dessert (Dessert 1909), exquisite
9.4 flowers of large size; broad, delicate petals of a
* translucent texture. Creamy white but lighted
with buff and salmon shades. A very fine flower
in every way and one of the best we know. Mid-
season to late. L. D. S2.50. 1 yr. S3.50.

Madame Manchet (Dessert 1913), a very full cup-
8.5 shaped flower of rose-pink with a silvery light.
Tall, stiff stems. Very late. L. D. S1.50. 1 yr.
S2.

Madelon (Dessert 1922), attractive rose-pink flowers
8.7 of globular, compact form. Petals tipped lighter
giving a brilliancy to the bloom. Late midseason.
A fine variety. L. D. S8. 1 yr. S10.

Marie Crousse (Crousse 1892), globular blooms of a
8.9 very delicate shell-pink, or deep flesh color. Stiff
* upright stems. Fragrant. A very attractive
flower. Midseason to late. L. D. S2. 1 yr. S3.

Marie Jacquin (Verdier), pure white petals inter-
8.3 mixed with golden stamens which give the flower
* a delicate creamy shade. Flowers somewhat
variable oftentimes semi-double. The outer petals
are incurved giving a cupped waterlily effect
which is charming. Stems strong. Midseason.
L. D. S1.50. 1 yr. S2.

Martha Bulloch (Brand 1907), tall, strong growth
9.1 producing immense blooms of soft rose-pink, well
formed and of good substance. L. D. S7.50.
1 yr. S10.

Mary Brand (Brand 1907), deep red flowers of great
8.7 brilliancy. Medium height. Midseason. L. D.
S2. 1 yr. S3.

Mary Woodbury Shaylor (Shaylor 1916), guard
9.0 petals fresh shell-pink, center creamy yellow with
golden lights at base of petals. Plants dwarf with
upright stems. Midseason. One of Mr. Shaylor's
best seedlings. L. D. S5. 1 yr. S7.

See our fine collection of German Iris in bloom in early
June.

- Maud L. Richardson** (Hollis 1904), flesh-pink showing some golden-edged stamenoides. Bloom a little ragged but very good as a landscape variety. Fragrant. Stems long. Late. L. D. \$1.50. 1 yr. \$2.
- Milton Hill** (Richardson 1891), very beautiful flower of a delicate shade of flesh color with pale salmon-pink tints; sometimes marked crimson. Of globular form and rather incurved petals; it is an exquisite flower in every way. Late. L. D. \$2.50. 1 yr. \$3.50.
- Minnie Shaylor** (Shaylor 1919), medium height and strong upright stems, bearing very large flowers of flesh-pink. Midseason. L. D. \$15. 1 yr. \$20.
- Mr. L. Van Leeuwen** (Nieuwenhuyzen 1916), very large flowers of light crimson. Broad outer petals gradually narrowing toward the center. Strong, tall stems. Fragrant. Late midseason. \$5. each.
- Mrs. A. M. Brand** (Brand 1925), large rather flat flowers of pure white. The petals have a great deal of substance giving the flower a fine form. Fragrant. Late. Gold Medal A. P. S. 1923. \$50. each.
- Mrs. C. S. Minot** (Minot 1914), a variety of great merit which we introduced in 1920. Awarded Silver Medal by Mass. Hort. Soc. Plants of medium height with stiff stems and dark green foliage. Very large flowers, finely formed, with broad petals. Guard petals faint shell-pink, center of creamy white with golden lights at base of petals. A few splashes of crimson are apparent in some flowers. Late. L. D. \$20. 1 yr. \$25.
- Mrs. Charles Gilbert** (Shaylor 1916), large, rather loose flowers of soft pink. Mr. Shaylor described it as the exact color of Therese. Established plants give quantities of charming flowers. Midseason. L. D. \$1.50. 1 yr. \$2.
- Mrs. Edward Harding** (Shaylor 1918), large, pure white flower of fine quality. Petals are set close together without overcrowding. Midseason to late. L. D. \$6. 1 yr. \$8.
- Mrs. E. J. Shaylor** (Shaylor 1920), very large flower of delicate pink, petals broad and well rounded. Rather loosely built flowers but full. Late midseason. L. D. \$12. 1 yr. \$15.
- Mrs. F. A. Goodrich** (Brand 1925), deep pink but with salmon lights which are very pleasing. Very late. \$50. each.
- Mrs. Frank Beach** (Brand 1925), large flowers of creamy white. The petals are narrow and cut giving the flower a lacy appearance. Late. \$50. each.

Mrs. George Bunyard (Kelway 1898), finely formed
8.3 flower of shell-pink changing to deep blush, under-
side of guard petals somewhat flecked green. Tall,
strong stems bearing an abundance of flowers.
Midseason to late. L. D. \$2.50. 1 yr. \$4.

Mrs. Harriet Gentry (Brand 1925), good sized
9.1 flowers of glistening white with a greenish tinge
at base of petals. Late. \$50. each.

Mrs. Shaylor-Force (Shaylor 1919), large compact
9.0 bloom of globular form of ivory white, a few
narrow yellow-edged petals in collar and some-
times flecks of crimson in center. Very fragrant.
Midseason. L. D. \$12. 1 yr. \$15.

M. Jules Elie (Crousse 1888), immense globular
9.2 blooms, guard petals recurved, resembling chrys-
* anthemums. Clear medium pink with a silvery
tinge. Midseason. L. D. \$1.50. 1 yr. \$2.

M. Martin Cahuzac (Dessert 1899), very dark
8.8 garnet or maroon; globular flowers of medium
* size on strong stems. Midseason. Very effective
for landscape planting or for cut flowers. L. D.
\$3. 1 yr. \$5.

Mont Blanc (Lemoine 1899), extremely large flowers
8.4 of milky white, very full double. Petals of medium
width, fringed at tips, giving a feathery appear-
ance. Stems very large and tall. Midseason. L.
D. \$1.50. 1 yr. \$2.

Myrtle Gentry (Brand 1925), large full flowers of
9.1 rosy white or pale pink with salmon lights. Petals
broad and rounded giving a bloom of fine form.
Fragrant. Late. \$50. each.

Nancy Dolman (Vories 1924), extremely large
9.1 globular flowers on long stiff stems. Petals rather
wide and of a fresh pink. Late. L. D. \$20. 1 yr.
\$25.

Nell Shaylor (Shaylor 1919), dwarf-growing plant,
producing large shell-pink flowers. Sweetly scented
like a tea rose. L. D. \$6. 1 yr. \$8.

Pasteur (Crousse 1896), large flowers of very delicate
8.4 shell-pink with soft yellow lights at base of petals.
Midseason. L. D. \$1.50. 1 yr. \$2.

Philippe Rivoire (Riviere 1911), very fine dark
9.2 crimson, fully double. Midseason to late. Fra-
* grant. It is a striking variety for the garden as its
intensity of color makes it distinct. L. D. \$10.
1 yr. \$12.

Phoebe Cary (Brand 1907), large flowers of very soft
8.8 rose pink, shading deeper toward the center.
Stems tall and strong. Late. L. D. \$2.50. 1 yr.
\$4.

Grounds well planted increase the appearance of one's
grounds wonderfully.

Phyllis Kelway (Kelway 1908), large flowers of 9.0 flushed pink, yet with delicate coloring which
* gives a fresh and charming effect. Strong, erect stems. Fragrant. Late. L. D. \$6. 1 yr. \$8.

Pierre Duchartre (Crousse 1895), evenly colored, 8.2 deep shell-pink flower with very broad, rounded petals. Stems strong and upright, although only of medium height. Very late. L. D. \$1.50. 1 yr. \$2.

Pink Baroness Schroeder (Kelway). This variety is wholly distinct from Eugenie Verdier. Exceptionally large fine flowers, flat in form, of deep shell-pink with delicate tints. Extra good as a cut flower and for garden effects. Midseason. L. D. \$3.50. 1 yr. \$5.

Primevere (Lemoine 1907), guard petals deep creamy 8.6 yellow and center petals sulphur yellow. If not
* exposed to the full sun the flowers will hold a canary-yellow which is most attractive. Very fine. Midseason. L. D. \$2.50. 1 yr. \$4.

Rachel (Lemoine 1904), large, globular flowers of 8.3 excellent form; fresh, soft rose. Strong stems. L. D. \$2. 1 yr. \$3.50.

Raoul Dessert (Dessert 1910), large blooms with 9.0 broad petals of shell-pink with deeper gleams.
* Distinct and fresh coloring. Late midseason. Scarce. L. D. \$7.50. 1 yr. \$10.

Reine Hortense (Calot 1857), large compact flowers 8.7 with broad rounded petals of soft flesh color,
* center showing some crimson splashes. Very charming variety. Midseason. L. D. \$1.50. 1 yr. \$2.

Renee Marie (Dessert 1920), good-sized flower of soft 8.4 pink with lighter center usually marked with crimson. Medium to tall with strong erect stems. Midseason. L. D. \$3.50. 1 yr. \$5.

Richard Carvel (Brand 1913), one of the best early 8.8 reds which we have. Large, bomb-shaped blooms
* of the same style as Felix Crousse but better in color. L. D. \$3. 1 yr. \$4.50.

Rosa Bonheur (Dessert 1905), delightful flowers of 9.0 fresh soft pink. Petals even and incurved, giving a globular shape. Plant rather dwarf and compact. Midseason. L. D. \$3. 1 yr. \$5.

Rose Shaylor (Shaylor 1920), large, flesh pink with 9.1 creamy lights at base of petals, center creamy white. Erect, strong growth. One of the best of the Shaylor seedlings and a fine variety. Midseason. L. D. \$15. 1 yr. \$20.

See our fine collection of German Iris in bloom in early June.

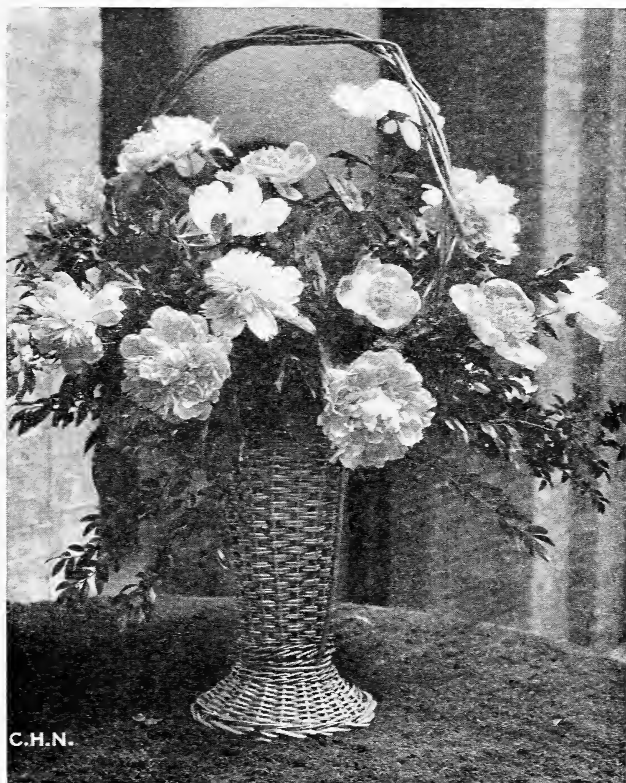

Rosette (Dessert 1918), delicate shell-pink, illuminated with salmon tints at base of petals. Golden stamens are sometimes visible. Occasional accidental marking on guard petals. Early midseason. L. D. S3. 1 yr. \$4.50.

Sarah Bernhardt (Lemoine 1906), very large, well-formed flowers of good quality. Delicate shell-pink of charming freshness. Extra. Late. L. D. S2. 1 yr. S3.

Sarah Carstenson (Terry 1901), soft shell-pink changing to deep flesh, center petals edged or flecked carmine. Globular in form and a very attractive flower. Medium to dwarf but of strong growth. Midseason. L. D. S3. 1 yr. \$4.50.

Secretary Fewkes (Shaylor 1916), very large flowers with broad rounded petals of great substance. Creamy white with lighter center. Tall, strong stems and a vigorous grower. Midseason. L. D. S3.50. 1 yr. S5.

Silvia Saunders (Saunders 1921), cup-shaped flowers of bright rose-pink of an attractive shade, center of yellow stamens and bright pink stigmas. Dwarf plant with free flowering habit. Early. Fine for garden effect. \$15. each.

For decorative effect nothing is finer than a basket of Peonies.

Solange (Lemoine 1907), extra large flowers with
9.7 broad rounded petals of such fine form that the
* flower does not look coarse. Petals waxy white but
suffused with a reddish golden light, so that the
total effect is such as may be seen on a cloud at
sunset. One of the very finest. Late midseason.
L. D. \$3.50. 1 yr. \$5.

Souvenir de Louis Bigot (Dessert 1918), exception-
9.1 ally large blooms of a very distinct shade of rich
* salmon-pink with silvery lights. Extra fine. Late
midseason. Scarce. L. D. \$4. 1 yr. \$6.

Splendida (Guerin 1850), tall, very strong stems bear
8.3 large globular blooms of flesh-white, slightly
tinted lilac. Very fragrant. On account of its
strong habit we recommend it as a "landscape
variety". Midseason to late. L. D. \$1.50. 1 yr.
\$2.

Standard Bearer (Hollis 1906), very high built
8.5 globular blooms with recurved central petals.
Uniform color of pale pink. Fragrant. Dwarf but
with strong, stiff stems. Early. L. D. \$2.50.
1 yr. \$4.

Suzette (Dessert 1911), petals of brilliant rose-pink
8.2 interspersed with golden stamens. Strong stems
* that give a profusion of blooms, literally covering
the plants, making this a fine variety for garden
effects. Midseason. L. D. \$1.50. 1 yr. \$2.

Sylviane (Lemoine 1924), broad guard petals of white
and center of narrower petals, pale yellow fading
to white. Midseason. \$10. each.

Therese (Dessert 1904), one of the very best and
9.8 probably the most satisfactory variety in com-
* merce. Vigorous and free blooming, producing
large flowers of soft shell-pink with lighter center.
Stems of medium height and good strength. Mid-
season. L. D. \$3.50. 1 yr. \$5.

Tourangelle (Dessert 1910), cup-shaped flowers of
9.4 delicate creamy white with deeper salmon
* shadings at base of petals. Most unusual and
beautiful coloring. Very fragrant. Late. L. D.
\$3. 1 yr. \$5.

Venus (Kelway 1888), exquisite pointed buds, open-
8.3 ing into large, compact flowers of delicate shell-
* pink with a collar of flesh-white. Extra good both
as a garden flower and as a cut flower. One of the
best in our collection. Midseason. L. D. \$1.50.
1 yr. \$2.

Victoire de la Marne (Dessert 1915), large globular
8.2 blooms of dark crimson with a silvery reflex.
Stems strong and vigorous. Midseason. L. D.
\$1.50. 1 yr. \$2.

Our grounds are open to the public from 7 a.m. to 5 p.m.
Sundays excepted.

Victory Chateau Thierry (Brand 1925), very large
8.9 blooms of bright clear pink. Broad rounded petals
of good substance make this a most attractive
flower. Rather dwarf. Early. \$50. each.

Walter Faxon (Richardson 1904), medium sized
9.3 blooms of bright rose-pink with salmon shades.

* Usually described as the only real pink peony.
The blooms should be given some protection from
the sun to preserve the coloring. Midseason. L.
D. \$3.50. 1 yr. \$5.

W. F. Christman (Franklin 1921), very large, full
8.8 flowers of delicate pink fading to white with pink
tints at base of petals. The stems are strong and
carry the flowers with ease. Midseason. L. D.
\$3.50. 1 yr. \$5.

William F. Turner (Shaylor 1916), very dark red or
8.4 garnet. Tall, strong grower and gives a fine spot
of color in the garden. Midseason. L. D. \$3.
1 yr. \$4.

Wilton Lockwood (Shaylor 1915), tall strong grower,
8.8 producing large, flat flowers of deep pink with
pronounced crimson markings on some petals.
Midseason. L. D. \$5. 1 yr. \$8.

SERIES C

\$1.50 each; \$15.00 per dozen.

Two-year clumps \$2.25 each; \$22.50 per dozen.

Three-year clumps \$3.00 each; \$30.00 per dozen.

This series embraces Peonies which have well estab-
lished ratings, as they have been well tested and are
what are called "Standard Varieties". We can recom-
mend their qualities of growth and bloom as satisfac-
tory and a selection for a border or mass planting will
be found to give masses of color. They have been
grown from the Cherry Hill Strain, and included in
this series are many which formerly listed at much
higher prices. Varieties not wholly satisfactory have
been eliminated in order that the standard be kept up
to the highest mark.

Adolphe Rousseau (Dessert & Mechin 1890), very
8.5 tall, strong grower, bearing rather loose, some-
* times semi-double flowers of deep garnet. Very
fine for the garden, where its height and color
make it conspicuous. Early midseason.

Alfred de Musset (Crousse 1885), large, full, double
7.5 blooms of a light pink with somewhat deeper
center. Fragrant. Tall, upright stems and good
foliage. Late.

Aviateur Reymond (Dessert 1915), a very attractive
8.0 shade of cherry-red with deeper garnet shades at
base of petals.

Cherry Hill trees and plants are selected for their
hardiness.

Aurore (Dessert 1904), a free-flowering variety, petals 8.0 rather loosely arranged, mixed with yellow stamens which give a charming effect of creamy white with golden lights. Midseason.

Avalanche (Crousse 1886), fine flowers of convex 8.7 form, ivory white oftentimes with a touch of
* crimson on the central petals. Very good as a cut flower. Late midseason. This won first prize at London, Ont., for "best flower in the show."

Bayadere (Lemoine 1910), large, globular flowers of 8.5 creamy white with a golden heart. Symmetrical and very pleasing in form. Midseason.

Beauty's Mask (Hollis 1904), large flower of faint 7.9 blush-pink with narrow petaloids of deep cream, edged yellow. These are incurved with the petals and give the flower a distinctive appearance.

Bertrade (Lemoine 1909), large compact blooms of 8.6 ivory-white; stiff stems and vigorous habit when established. Late.

Claire Dubois (Crousse 1886), very large globular 8.7 blooms of satiny pink, petals long and incurved.
* Strong stems and dark green foliage. Late.

Docteur H. Barnsby (Dessert 1913), large, very full 8.1 blooms of crimson with darker shades. Free bloomer in clusters, making a good variety for garden effects. Late.

E. G. Hill (Lemoine 1906), large symmetrical flowers, 7.8 petals very closely and evenly placed. Rose-pink with lighter tints and occasionally a few golden stamens. Stiff stems of medium height. Our stock is strong and vigorous. Midseason.

Eugenie Verdier (Calot 1864), a tall and free-bloom- 8.6 ing variety of good size and form. Delicate fresh
* center with lighter outer petals of beautiful satiny sheen. Midseason.

Evangeline (Lemoine 1910), very well formed com- 8.2 pact flowers of pale pink. A very fresh and charming flower. Very late.

Exquisite (Kelway 1912), good-sized flat flowers of 8.5 warm pink, petals rather pointed. Not strong in young plants, but well established plants produce fine flowers. Fragrant. Midseason to late.

Fraicheur (Lemoine 1914), like almost all of Le- 8.2 moine's varieties, very large flowers of fine form. Creamy white, with delicately tinted guard petals.

Germaine Bigot (Dessert 1902), cameo pink with 8.5 lighter flesh colored tints in center, very broad
* petals and altogether a fine flower. Stems of medium height and upright. Midseason.

Keeping the earth well stirred around your plants and shrubs will produce wonderful results.

Gigantea (Lamartine, Calot 1860). We are listing this 8.2 as *Gigantea* to distinguish it from *Lamartine* * (Lemoine). Extremely large flowers of delicate rose-pink. Midseason. A very popular variety for both garden effects and for cut flowers.

Ginette (Dessert 1915), large, symmetrical flowers of 8.6 deep flesh, with salmon tints at base of petals. * Golden stamens are visible in flowers from young plants, but when well established the flowers are extra fine. Fragrant. Midseason.

La Fayette (Dessert 1904), large, evenly formed 7.8 blooms of rich pink with a silvery reflex. Fragrant and a fine variety. Midseason.

La Rosiere (Crousse 1888), a dainty variety with 8.3 semi-double white blooms having yellow tints * like a tea rose. Foliage dark green and "crinkled". Not large but very charming. Midseason.

Madame Auguste Dessert (Dessert 1899), very 8.6 beautiful soft pink, fading to flesh color. In the * half-open flower a ring of golden stamens is visible. Midseason. A fine variety.

Madame Emile Lemoine (Lemoine 1899), large full 8.9 blooms of soft flesh-white. Petals have a rather * translucent effect. Tall, strong stems. Midseason.

Madame Joanne Sallier (Paillet), carmine-rose with 7.9 occasional flecks on guards and center. Semi-double blooms of large size on tall, strong stems. Early.

Mademoiselle Jeanne Riviere (Riviere 1908), 8.2 guard petals deep flesh, gradually changing * lighter, center petals narrower and of a deep cream shade. Tall, strong stems and abundant flowers. This variety is especially good for garden or mass effects. Midseason.

Marcelle Dessert (Dessert 1899), creamy white 8.2 splashed with minute lilac dots, giving the effect of a delicately tinted flower. Some "accidental" carmine markings. Fragrant. Midseason.

Marguerite Gaudichau (Millet 1903), very delicate 8.1 shell-pink petals, rather incurved, interspersed with an irregular ring of yellow stamenoids. Fragrant. Very charming variety. Late.

Marguerite Gerard (Crousse 1892), globular blooms 8.4 of flesh-pink fading to creamy white, showing a * ring of gold when fully developed. Strong grower and free bloomer. Late.

Mrs. M. P. Clough (Shaylor 1917), large flower of 8.8 salmon pink.

Octavie Demay (Calot 1867), large, rather flat
8.5 flowers of pink and white beautifully blended.

* Fragrant. Dwarf plant but good foliage.

Perrette (Dessert 1921), very pretty flower, white
8.3 slightly tinged flesh and straw yellow, petals intermixed with golden stamens, pleasant fragrance, very free bloomer in clusters. (Originator's description)

Winnifred Domme (Brand 1913), medium-sized
8.3 flowers of bomb type, bright red. Medium height and strong stems. Early midseason.

SERIES D

\$1.00 each; \$10.00 per dozen.

Two-year clumps \$1.50 each; \$15. per dozen.

Three-year clumps \$2.00 each; \$20.00 per dozen.

Many of these are older varieties which have stood the test of time and proved their worth. For mass effects or in the border they will be found most satisfactory and charming pictures may be obtained by their generous use.

Asa Gray (Crousse 1886), a variety which was introduced a good many years ago, but always in good demand. Unique flowers of milk-white, thickly sprinkled with minute carmine dots, so that the total effect is delicate pink. Midseason.

Boule de Neige (Calot 1867), this variety blooms
8.0 about midseason and produces very large white
* flowers, usually with rather uniform red markings. It resembles M. Dupont but is usually larger.

Couronne d'Or (Calot 1873), large full flowers of pure
8.1 white with a circle of golden stamens. A very
* beautiful variety and valuable as a cut flower. Late.

Edith Littleton (Kelway), quite an early and free-blooming variety of large globular form. Coloring a beautiful deep shell-pink with light satiny tips.

Enchantment (Hollis 1907), large globular blooms
8.0 of deep shell-pink. Strong upright stems of medium height. Late. A very good landscape variety.

Faribault (Brand 1918), deep rose of a peculiar shade
7.8 with a silver sheen.

Felix Crousse (Crousse 1881), a compact globular
8.4 bloom of large size and fine form. Deep ruby red,
* center shading somewhat deeper. Very choice. Midseason to late.

Florence Nightingale (Brand 1907), a pure white
7.8 flower of delicately arranged petals. Very late.

Gloire de Charles Gombault (Gombault 1866),
7.9 tall, strong stems bearing large flowers of mauve-pink with a deep collar of creamy white and a pink tuft in the center. Very distinct. Midseason.

Keep your plants and shrubs well watered.

Jules Calot (Calot 1861), large double flowers of a
7.2 beautiful shade of deep rose-pink. Blooms very
* freely and is choice as a cut flower. Late.

La Tendresse (Crousse 1896), delightful milk-white
8.1 flowers with an occasional splashing of carmine;
good size and borne freely in clusters. Midseason.

L'Indispensable. Very large flat bloom of delicate
7.3 flesh-pink. Not a reliable bloomer, but when well
done is a magnificent flower.

Livingstone (Crousse 1879), compact flowers of light
8.1 silvery pink, oftentimes flecked with carmine.
Strong stems produce a profusion of bloom. Late.

Mme. Calot (Meillez 1856), large, fresh-pink blos-
8.1 soms with some buff shades. Strong stems.
* Early.

Mme. Crousse (Calot 1866), a very large and beauti-
7.9 ful pure white flower, sometimes showing a crim-
son fleck on a central petal. Extra. Midseason.

Mme. Emile Galle (Crousse 1881), an exquisite
8.5 shade of shell-pink. Flowers large and borne on
* long stems. We can thoroughly recommend this
when a very late variety is desired.

Mme. Guyot (Paillet), large, high-built flowers of
7.7 deep cream or pale yellow, with some markings of
green. A strong grower and free bloomer. Very
desirable. Early.

Mlle. Leonie Calot (Calot 1861), a beautiful shade of
8.1 salmon-pink fading to a soft flesh-white. Blooms
* freely in clusters on long stems. Late.

Marquis C. Lagergren (Dessert 1911), brilliant
7.8 cherry-red with darker shadings. Flowers borne
in clusters on stiff, upright stems, which make it
an excellent variety for mass planting. Midseason.

Marie Lemoine (Calot 1869), very large flower of
8.5 creamy white with a golden light reflected from
* hidden stamens. Fragrant. Stems dwarf but
strong. Late. An exceptionally beautiful flower.

Masterpiece (Kelway 1895), a deep, glowing crimson
7.4 oftentimes showing some golden stamens. Stems
* erect and a very fine variety for garden effects.
Late.

Midnight (Brand 1907), large, very dark maroon,
7.3 good for cut flowers. Early midseason.

Monsieur Dupont (Calot 1872), large, symmetrical
8.3 flowers of ivory-white with crimson markings in
center. Strong, vigorous growth and a fine variety.
Late.

R. P. Whitfield (Richardson 1904), flesh shading a
8.0 little deeper towards the edge. Rather flat
flowers borne on long stems. Very late.

To plant Cherry Hill Evergreens is to plant wisely.

Simonne Chevalier (Dessert 1902), deep shell-pink 7.9 with lighter collar, bomb shape. A profusion of large flowers on tall stems make this one of the most noticeable of the early midseason varieties.

Stanley (Crousse 1879), large globular flowers of light 8.0 pink with lilac lights. Total effect is very pretty. Midseason.

Triomphe de l'Exposition de Lille (Calot 1865), 7.8 deep shell-pink with minute splashings of a deeper * shade. A remarkably uniform blossom, as the petals are laid in regular order. Midseason.

SERIES E

75 cents each; \$7.50 per dozen.

Two-year clumps \$1.13 each; \$11.25 per dozen.

Three-year clumps \$1.50 each; \$15.00 per dozen.

If you wish to plant Peonies as a border or background for other perennials, you will find a good selection in this series. The flowers are not as large as many of the newer ones, but where landscape effects are desired, plants from this series offer a material saving in costs. We have entirely discarded many varieties which did not give a large number of blooms.

Admiral Togo (Hollis 1907), a fine shade of crimson 7.1 which is very attractive in the garden. Midseason.

Docteur Caillot (Verdier 1856), good-sized flowers of 7.2 crimson. Blooms very freely, oftentimes in clusters, and is a very good variety for garden effects. Midseason.

Duchesse de Nemours (Calot 1856), cup-shaped 8.1 blooms, broad guard petals of white and narrower * central petals of sulphur-yellow, with oftentimes a marking of green. Early midseason.

Estafette (Dessert 1910), good-sized, globular blooms 7.9 of carmine with silvery light. Very early.

Eucharis (Lemoine 1909), fragrant, creamy white, 7.6 of large size and globular shape. Late.

Festiva Maxima (Mieliez 1851), probably the most 9.3 widely known of any peony. Exceptionally large * ivory-white flowers of rather feathery appearance, with a fleck of crimson in the center. Strong grower and free bloomer. Midseason.

La Tulipe (Calot 1872), large pointed buds of light 7.5 pink, beautifully marked with carmine stripes. Flowers light flesh-pink. Very good. Midseason.

Mme. Barillet Deschamps (Calot 1868), a variety 7.8 well adapted for landscape work. Blossoms large, well-formed, and a beautiful soft rose with silvery reflex. Foliage quite broad. Midseason.

Please ask for advice about your Rock Garden planting.

Mme. de Verneville (Crousse 1885), a beautiful
7.9 milk-white peony with center flesh-pink when
* first opened. Center petals sometimes tipped with
carmine. Early to midseason.

Mme. Ducel (Mechin 1880), extra large globular
7.9 blooms of a beautiful rose-pink with silver reflex,
* resembling a mammoth chrysanthemum. Very
fine. Midseason.

Mme. Savreau (Savreau 1906), guard petals and
7.7 center tinted faint lavender with a collar of
creamy white. Central petals show carmine mark-
ings. Early midseason.

Pierre Reignoux (Dessert 1908), large flowers of
7.4 bright rose-pink petals rather loosely arranged.
A free bloomer in clusters. Very good for garden
effects. Early.

Princess Irene (Kelway 1889), tall, strong grower and
7.2 of free-flowering quality. Guard petals flesh-pink
* and center sulphur-yellow. One of the best
"yellow" peonies. Midseason.

Souvenir du Dr. Bretonneau (Dessert 1880), deep
7.2 rosy red, rather loosely arranged petals. Mid-
* season.

Virginie (Calot 1858), large fragrant blooms of shell-
7.6 pink fading to a flesh color. Bright golden stamens
showing in center of fully opened flowers. Extra
nice. Midseason to late.

SERIES F

50 cents each; \$5.00 per dozen.

Two-year plants, 75 cents each; \$7.50 per dozen.

Three-year plants, \$1.00 each; \$10.00 per dozen.

Many of the older varieties of Peonies have been discarded and sometimes we overlook good qualities which have made these varieties so well liked in the past. The varieties listed in this series will not produce individual blooms for the show table, but they do make a pretty effect in the garden.

Alexandre Dumas (Guerin 1862), large, attractive
7.1 blooms of bright pink often intermixed with
* creamy white petals. Midseason.

Edouard Andre (Mechin 1874), medium-sized blos-
7.1 soms of a satiny crimson-maroon with rich golden
center. Midseason.

Edulis Superba (Lemon 1824), deep rose-pink with
7.6 an occasional crimson marking. Guard petals
* wider than those in the center. Very early.

Louis van Houtte (Calot 1867), flowers of medium
6.9 size, of a beautiful dark crimson, with a luster
* which makes them noticeable. We believe that
this variety should be rated higher.

Kindly note our reduced prices on German Iris.

Marechal Vaillant (Calot 1867), immense full
7.5 blooms of crimson of good substance. Stems long,
* but should be supported to keep up heavy blossoms. Very late.

M. Boucharlat Aine (Calot 1868), strong plants
7.1 bearing immense imbricated blooms of soft pink.
Very good for landscape work.

SINGLE PEONIES

Price per dozen at ten times the single rate, e.g.,
\$1.00 each; \$10. per dozen.

Prices quoted are for large divisions (L. D.) consisting of strong three to five eye divisions, and one-year (1 yr.) plants, which are divisions grown for one year or divisions equal to those.

For two-year clumps add 50 per cent to one-year price.

Three-year clumps at double the price of one-year plants.

The single flowers, or those having a single row of petals with a center of yellow stamens, are the first to bloom, but will last for some time, for as the terminal flower fades the side or lateral buds open. For garden effects they are often more satisfactory. They are more individual and withstand the rains and winds where the heavier doubles might be beaten down. In the early morning and at dusk the flowers are closed, resembling large rosebuds, and are especially alluring. If cut when in bud and brought into the house they will keep a week or more. We have tested many varieties for years, and list below those that we have found to be best.

Black Prince (See Series A)

Celeste Brochet (Brochet), milk-white petals thickly sprinkled with minute dots of lilac, giving a total effect of pale lavender or faint pink. Stock limited. L. D. \$2.50. 1 yr. \$3.50.

Clairette (Dessert 1905), tall, strong stems with dark
8.1 green foliage, bearing very large pure white
* flowers. The petals are long and silky and the center mass of stamens is bright yellow. L. D. \$2. 1 yr. \$3.

Dorothy (Kelway 1898), a single row of broad pink
7.5 petals and bright golden center make this an attractive variety for the border. 75 cents each.

Duchess of Portland (Barr), white, faintly tinted
7.8 pink, gradually deepening toward the center of each petal. Strong, tall grower. \$1.00 each.

Emily (Kelway), rose-pink, not tall but free flowering
7.4 and shows up well in the border. \$1.00 each.

In June Cherry Hill is the Mecca of thousands of Peony Lovers.

Helen (See Series A)

Hesperus (Kelway), broad petals of deep shell-pink
* of good substance, forming a cup-shaped flower.
L. D. \$1.50. 1 yr. \$2.

Lady Lilian Ogle (Kelway), faintly tinted buds,
* opening into pure white flowers. Strong, vigorous
plants of a rather bushy habit. L. D. \$1. 1 yr.
\$1.50.

Lady Margaret Ferguson, broad petals of deep yet
delicate pink. Medium height and good foliage.
\$1.00 each.

Le Jour (Shaylor 1915), large, pure white single flow-
8.6 ers, petals of good substance, so that the flowers
do not wilt down. Stamens yellow showing red
stigmas. Very fine. Early. L. D. \$4. 1 yr. \$5.

L'Etincelante (Dessert 1905), large flowers and
8.4 broad petals of brilliant carmine with a silvery
* border. Stems erect and vigorous. L. D. \$1.50.
1 yr. \$2.

Marjorie Allison (Shaylor 1918), single flowers of
8.3 satiny white. Early. L. D. \$4. 1 yr. \$5.

Mrs. Key (Terry), a deep shade of glowing crimson.
7.9 Very effective and one of the best of its color.
* \$1.00 each.

Mrs. F. J. Clark, a strong grower, petals broad and
pure white, except a faint tinting of pink at base.
L. D. \$1. 1 yr. \$1.50.

Perle Blanche (Dessert 1913), broad, rounded petals
8.4 of pure white and a glowing mass of golden
stamens. Stems tall and erect. L. D. \$3. 1 yr. \$4.

Prince Bismarck (Kelway), large flowers of deep
crimson with golden stamens. 75 cents each.

Single White, from among our many thousands of
seedlings we selected a number of the best.
Glistening white flowers with golden stamens.
\$1.00 each.

Stanley (Kelway 1890), brilliant red with large golden
7.8 center. The foliage of this variety is broad and
luxuriant and especially attractive throughout
the summer. L. D. \$1. 1 yr. \$1.50.

The Bride (Dessert 1902), large white flowers with a
8.4 glowing mass of stamens. Tall, stiff stems and
* luxurious foliage. L. D. \$1.50. 1 yr. \$2.

The Queen (Kelway), a beautiful single white, del-
icately suffused blush-pink. Free blooming and
vigorous. \$1.50 each.

Victoria, long petals of a brilliant crimson which glow
in the sun. Foliage dark green. L. D. \$1. 1 yr.
\$1.50.

Whitleyi Major, quantities of blush-white flowers
8.5 with golden hearts are borne on the strong stems.
* Foliage heavy and dark green. \$1.50 each.

RARE JAPANESE PEONIES

The so-called Japanese Peonies are those which have one or two rows of petals and centers of stamens much thickened. These latter are almost devoid of pollen and oftentimes make a thick cushion of golden yellow. The effect is beautiful and distinct, and they continue to bloom throughout the Peony season. Although strong growers, they propagate slowly and the stocks are usually limited.

Alma (Shaylor 1916), pale pink petals enclosing a 8.5 mass of incurved yellow petaloids. A fine Japanese variety. L. D. \$3.50. 1 yr. \$5.

Ama-no-sode, exceptionally large flowers, petals 9.2 bright rose-pink with lighter tints and a mass of * stamens. Very scarce. L. D. \$8. 1 yr. \$10.

Aureolin (Shaylor 1917), a Japanese single of medium 8.9 size with pink guard petals and deep sulphur * center. Midseason to late. L. D. \$3.50. 1 yr. \$5.

Edward VII (Kelway), we have found this to be a * good red of strong growth and a profusion of bloom. Petals of deep crimson and a good compact center of yellow stamens. Midseason. L. D. \$2. 1 yr. \$3.

Flashlight (Hollis 1906), crimson petals with narrow 8.2 central petals deep yellow with crimson shades. A most distinct and attractive flower. L. D. \$4. 1 yr. \$5.

Fuyajo, dark garnet petals, center petals narrow and 9.2 striped garnet and white. L. D. \$8. 1 yr. \$10.

Gold Mine (Hollis 1907), deep, vinous-red petals 8.2 with golden stamens. L. D. \$2.25. 1 yr. \$3.

Isani Gidui, tall strong stems, rounded petals of pure 9.3 white with a thick cushion of golden stamens. We * consider this the best white which we have ever seen, but our stock is very limited. \$10. each.

Jap No. 5. We received this variety without a name from a private collection and have not identified it. Petals bright crimson with bright yellow stamens. Strong grower and free bloomer. L. D. \$1. 1 yr. \$1.50.

King of England (Kelway 1902), a rich shade of 8.6 carmine, the long stamens self-color edged golden. * Tall, strong grower and free bloomer. A brilliant variety. We believe our stock to be the true strain. L. D. \$5. 1 yr. \$7.50.

Petite Renee (Dessert 1899), flower of medium size, 7.6 deep pink with orchid coloring, center petals very narrow and a little lighter than the outer guard petals. Midseason. \$1.00 each.

Cut your old phlox blossoms off so that they will not go to seed.

Purity (Bunting), pure white petals surrounding a mass of pale yellow filamentary stamens. A dainty flower. L. D. \$2.50. 1 yr. \$4.

Purple Cup (Kelway), deep cherry-red petals, which make an effective contrast with the golden stamens. L. D. \$3.50. 1 yr. \$4.50.

Ruth Force (Shaylor 1922), a Japanese type of bright 8.3 cerise-pink petals with stamens edged with petal color. Holds its color well until the petals fall. Midseason to late. L. D. \$4. 1 yr. \$5.

Tokio, tall strong stems with an abundance of dark 8.9 green foliage. Large flowers of rose-pink petals
* and a thick mass of incurved stamens. One of the best Japanese pinks which we have ever seen. L. D. \$6. 1 yr. \$7.50.

Toro-no-maki, large blush-white petals fading to 9.0 white as flower opens, center of creamy staminoïdes edged and tipped yellow. Medium height and good growth. Midseason. L. D. \$10. 1 yr. \$12.50.

White Lady (Kelway 1900), dwarf plant but vigorous 9.0 in growth, with light green foliage. Flowers of glistening white with a very thick mass of deep yellow stamens. The true variety is scarce. L. D. \$10. 1 yr. \$12.

Yeso, guard or outside petals pure white, narrow 7.7 center petals white, shaded slightly yellow, with oftentimes a carmine top. L. D. \$2.50. 1 yr. \$3.50.

No. 77-A. One of our seedlings which we have not named. Deep pink guard petals, center petaloids deep salmon-pink, sometimes mixed with longer ones of rosy pink (as if dipped). Very early and attractive because of its oddity. Strong growth. L. D. \$2. 1 yr. \$3.

VARIOUS PEONIES

We have grouped below several varieties. The first three are crosses between Chinese Peonies and Wittmanniana, and the last three are European types and varieties. They are all early flowering and extend the season of Peonies by two weeks.

Avant Garde, exquisite single flower of pale smoky 8.6 pink with golden tints and golden stamens. L.
* D. \$3. 1 yr. \$3.50.

Le Printemps, a creamy yellow shade, difficult to 8.6 describe, with faint reddish veinings at base of
* petals. Yellow stamens. L. D. \$3. 1 yr. \$3.50.

Our Collection of Japanese Iris is about as good as can be found anywhere.

Maifleuri, delicate flesh-white, with a rich creamy 8.4 yellow overcolor. Very fine. L. D. \$3. 1 yr. \$3.50.

The above three are very similar, but distinctive from the other varieties for their delicacy of coloring.

Officinalis alba plena, beautiful ivory-white flowers, fully double, possessing good substance, so that they will last for some time as cut flowers. \$2. each.

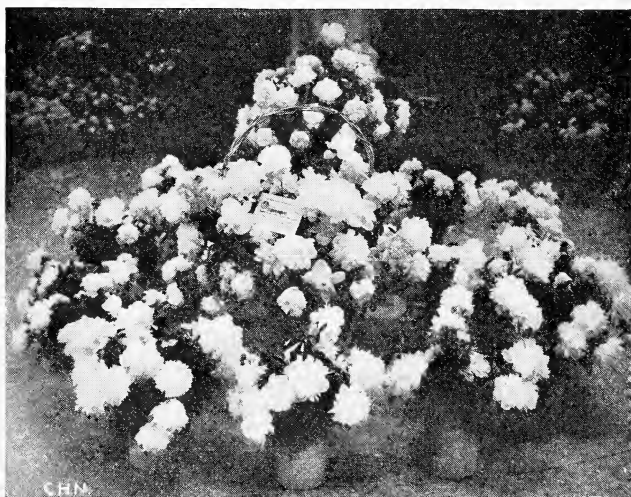

Officinalis rubra plena, double bomb-shaped flow- 8.6 ers of bright blood-red with almost no traces of purple. The old-fashioned red "piney". 75 cents each.

Officinalis tenuifolia, single flowers of bright red with center of golden stamens. Foliage finely cut. Often called the "fern-leaved peony". Very early. Height 6 to 9 inches. Not for sale this year.

Officinalis tenuifolia flore plena. A long name for a small plant. A double-flowering form of the above. The flowers appear to nestle in the grass-like foliage. Dwarf. Very early. Not for sale this year.

Smouthi, single, very brilliant red petals of silky texture and a center of bright yellow stamens. Foliage deeply cut. Very early. \$2. each.

Unnamed Peonies. During the dividing season sometimes a label is lost and the divisions are planted to sell to color. We can furnish these in two grades—\$2.50 per dozen and \$5.00 per dozen. They are all good varieties and very satisfactory for a border.

Part of our Display of Peonies awarded a Silver Medal by Horticultural Society of New York.

PHLOX

For masses of color in the perennial garden there is nothing more effective than Phlox, whose bright scarlets and crimsons make sharp accents with soft lavender and white. We have been studying many of the purples also, discarding those with magenta shades. The deeper colors are especially beautiful at twilight when they accentuate the deepening shadows. Phlox are primarily garden flowers and should be used in groups rather than single plants.

As soon as the flowers have finished blooming, the tips should be clipped off. This not only improves the looks of the plant but keeps the seed from ripening. Seedling plants allowed to grow around the parent will usually be stronger and eventually choke it out. As the seedlings have a tendency to revert to magenta you may find that the color scheme in your garden is changed. Whenever you see a bloom of wrong color, pull out the plant and you should have no further trouble.

The best fungicide which we have found is dry sulphur dusted on the leaves. This will prevent red spider and mildew which sometimes makes the lower leaves rusty. A small hand duster and specially prepared sulphur will be found most effective. This treatment will also help delphiniums and other garden perennials suffering from too much moisture on the foliage.

SERIES A

20 cents each; \$2.00 per dozen; \$15.00 per hundred.

Six plants of one variety will be furnished at the dozen rate and forty or more at the rate per hundred. Double sized plants for immediate effect, at double price.

The following will be found to be very satisfactory as they are all clear distinct colors and strong growers.

Annie Cook, medium height, bright flesh-pink with slightly darker center. Extra good.

Antonin Mercie, a tall variety of a beautiful shade of lavender, eye lighter. Midseason.

Hanny Pfleiderer, a beautiful velvety white overlaid with light rose-pink, with carmine eye, flowers large, medium height. Midseason.

Mme. Meuret, tall, very fine for massing. Flowers bright crimson, scarlet or flame color. Midseason.

Miss Lingard, one of the earliest flowering tall varieties. Medium sized white flower and dark green foliage. A continual bloomer.

Mons. Graham, medium height, bright rose-pink flowers in abundance. Midseason to late.

Stella's Choice, a tall vigorous grower. Trusses very large and snow-white. Extra nice. Late.

Watering Plants or Shrubbery should be done in the early morning or about sunset.

SERIES B

25 cents each; \$2.50 per dozen; \$18.00 per hundred.

Six plants of one variety will be furnished at the dozen rate and forty or more of one variety at the rate per hundred. Double sized clumps for immediate effect at double price.

Crepuscle, very large flowers of soft lilac deepening to a deep crimson center, total effect is very fine. Medium height. Midseason.

Dawn, a beautiful shade of shell-pink with an inconspicuous carmine eye, of medium height and free flowering habit. Midseason.

Europa, a pleasing variety of medium height with ivory-white blooms and carmine eye. Trusses large and well formed. Midseason.

F. G. Von Lassburg, plants of medium height, bearing pure white trusses of good size and substance. Individual panicles extra large. Midseason.

Frau Anton Buchner, a rich creamy white blossom of extra size panicle and truss. Medium to tall. Midseason.

Gen. Van Heutz, large panicles of salmon-red. Eye a grayish-white. Medium sized trusses. Tall, midseason to late.

Gruppenkonigen, tall, very large flowers of deep flesh-pink, deepening to a carmine-pink center. Midseason.

Le Mahdi, the best dark blue phlox grown. Flowers large, plants tall. Late.

Le Soleil, beautiful soft rose with darker-shaded eye, very choice. Medium height. Abundant bloomer during July, August and September.

Pantheon, a somewhat lighter rose-pink than Mons. Graham. Fine for mass effect. Tall. Medium to late.

Peach Blow, as its name implies, this variety is practically a peach-blossom pink with a somewhat lighter eye. Plant rather dwarf. Midseason.

R. P. Struthers, medium to tall variety. Color, bright pinkish-salmon with dark crimson eye. Midseason.

SERIES C

35 cents each; \$3.00 per dozen; \$22.00 per hundred.

Six plants of one variety will be furnished at the dozen rate and forty or more of one variety at the rate per hundred. Double sized clumps for immediate effect at double price.

Asia, one of the newer varieties, a beautiful lilac-rose with brilliant carmine eye. Medium height. Mid-season to late.

B. Comte, a deep shade of red plum, velvety texture and the finest in this class which we have seen. Medium height. Midseason.

Berenice, a medium growing ivory-white of good size and vigor. We consider this an extra choice variety. Midseason.

Cameron, an exquisite shade of deep apple-blossom pink, one of the best ever offered. Trusses of medium size with large panicles. Medium height. Midseason.

Elisabeth Campbell, clear, salmon-pink with a lighter center. Medium height. This is deservedly the most popular pink phlox as it will combine with any color and the large flowers make a brilliant mass effect.

Evelyn, tall, rich salmon-rose. The individual panicles are of immense size. New. Midseason.

Jules Sandeau, even color of rich rose-pink. Large panicles of flowers on dwarf stems.

Mme. Paul Dutrie, a strong bloomer of exquisitely shaded apple-blossom pink, lighter towards the center. Medium. Midseason.

Marie's Jacob, soft lilac with star-shaped white center, very large flowers. Medium.

Maid Marian, one of the best of our own seedlings and very popular. An ideal soft lavender, very even in color. Flowers are extra large. Midseason. Resembles Antonin Mercie but is taller and larger with more even coloring.

Mrs. Milly Van Hoboken. Medium in height and bearing long, heavy trusses of soft self-pink flowers of immense size. A striking novelty. Mid-season to late.

Rynstroom, an exceptionally beautiful brilliant rose, large size blooms and trusses. Tall. Midseason to late.

Tapis Blanc, a dwarf white of value. Trusses and panicles large. A fine variety for edging. Mid-season.

Thor, one of the later and best introductions. Medium height. Deep rich salmon-pink with deep crimson eye. Very fine. Midseason to late.

Wanadis, deep lilac with deeper eye. Medium height.

Widar, a deep violet-blue with pure white eyes. Medium. Midseason.

SERIES D

50 cents each; \$4.50 per dozen; \$30. per 100.

Six plants of one variety will be furnished at the dozen rate. Double size clumps at double price.

We are including in this series the best of the latest novelties which we have received.

Africa, a very deep red-purple, compact symmetrical trusses. Medium height. Midseason. One of the best of this shade.

Debs, a brilliant crimson, of a shade seldom seen in phlox. Very fine for a mass effect or for an accent in the garden. Medium.

Dr. Konigshofer, very brilliant scarlet, with blood-red eye. Medium height. Not a strong grower. Midseason.

Etna, tall deep coral-red, large flower heads and individual florets. Midseason. Extra. This is the true variety.

G. A. Strohlein (true). Dazzling scarlet-red with deeper eye. Medium height. We consider this one of the best of the scarlets. Midseason.

Mia Ruys (New). A vigorous growing dwarf variety with dark green foliage. Enormous trusses of very large pure white flowers. The best we have ever seen. Midseason.

Mrs. Scholten, medium height, deep blood-red or crimson. A fine variety for massing. Midseason.

Prof. Went (New). Medium to tall, velvety carmine red, much like Von Hochberg but more brilliant with larger flowers.

Ruby (Fewkes). Medium height, clear ruby red of a shade not found in other varieties. Of strong clean growth it makes an excellent note in the garden and blends nicely with other flowers. Introduced by us in 1928 after testing for a number of years. We consider it to be among the finest reds which we have ever seen. .50 each. \$5.00 per dozen.

For Dwarf Phlox see general list of perennials.

Plant perennials for permanency.

IRIS

These flowers extend through a very wide range of color as well as a great variation of height. They are well named the Rainbow Flower as every color is found in them and the effect of groups and masses is colorful and effective. The dwarf cristata which creeps along the ground is as hardy and sturdy as the tall Bearded Iris which attains a height of four feet.

The American Iris Society has done much to acquaint garden lovers with these beautiful flowers. Bulletins are issued from time to time and members are kept informed of the latest developments. The membership fee is \$3.00 per year and applications should be sent to Mr. J. B. Wallace, Jr., 129 Church St., New Haven, Conn. If you wish to learn of matters pertaining to Iris we cannot urge you too strongly to become a member.

The bearded Iris should be planted in well-drained soil preferring to be rather too dry than otherwise. Do not use stable manure as a fertilizer. Lime is usually beneficial, or bone meal. In planting, barely cover the rhizomes with earth and give them some protection the first winter to keep them from being thrown out by the frost.

We have listed those which we consider to be among the best of the newer varieties. The iris are at their best in the garden and we have tried to pick out those which have pure colors and strong, free flowering habits.

We have again reduced our prices on Iris considerably as our stock has increased so that we can still give you extra good size and quality even at these lower prices.

In the following descriptions S. signifies the standards or upright petals, and F. the falls or drooping petals. The rating marks are: first, exhibition, second, garden value.

IRIS

Six of one variety at the dozen rate and thirty or more of one variety at the rate per hundred.

Double sized clumps at double price.

Afterglow, height 36 inches. S. and F. soft lavender 83-82 gray lighted with rich yellow. Well branched and of strong growth. .40 each. 3 for .90. 12 for \$3.00.

Alcazar, height 36 inches. S. bluish lavender; F. rich 86-87 velvety purple. A strong grower and a very fine variety. .35 each. 3 for .75. 12 for \$2.50.

Ambassadeur, height 36 to 42 inches. S. clouded red-92-91 dish-violet; F. velvety violet. Very large flowers. .75 each. 3 for \$2.00. 12 for \$7.50.

* Ask us for a list of rock garden plants.

Anna Farr, height 36 inches. S. white bordered light 80-77 blue; F. white with pale blue markings at the base. Not always a profuse bloomer but when well done is very distinct. .60 each. 3 for \$1.50. 12 for \$5.00.

Archeveque, height 30 inches. S. pansy-purple; F. 79-81 deep velvety violet. One of the finest of the dark iris. .35 each. 3 for .75. 12 for \$2.50.

Aurea, height 24 inches. S. and F. rich orange-yellow. 73-77 An old variety but one of our best yellows. .25 each. 3 for .65. 12 for \$2.40.

Azure, S. lavender blue; F. deeper giving a total 77-74 effect of rich blue. .50 each. 3 for \$1.25. 12 for \$4.00.

Balder, 24 inches. S. olive-yellow; F. reddish-purple 83-82 with narrow border of olive-yellow. \$1.25 each. 3 for \$3.00. 12 for \$10.00.

Ballerine, height 36 inches. S. light violet blue with 90-89 deep shaded falls. The large flowers are very fragrant. \$1. each. 3 for \$2.75. 12 for \$10.

Benbow, height 30 inches. A dull bluish violet self-76-78 color. .50 each. 3 for \$1.25. 12 for \$4.

Brandywine, height 30 inches. S. and F. pale silvery 81-82 blue, distinct orange beard. The general color effect is clear china blue. \$1. each. 3 for \$2.50. 12 for \$9.

B. Y. Morrison, height 33 inches. S. pale lavender-84-80 violet; F. raisin-purple bordered lavender. .75 each. 3 for \$2. 12 for \$7.50.

Carthusian, height 24 inches. S. lavender; F. deeper 81-80 lavender-blue. Early. .40 each. 3 for \$1. 12 for \$3.50.

Caterina, height 36 to 42 inches. S. lavender; F. 84-83 slightly darker. Of very strong growth. Fragrant. .40 each. 3 for \$1. 12 for \$3.

Cecile Minturn, height 30 inches. S. and F. rosy 79-81 lilac, coming in the "pink" class. Ruffled petals. .50 each. 3 for \$1.25. 12 for \$4.50.

Chester J. Hunt, height 30 inches. S. sky-blue; F. deep blue with a somewhat lighter edge. Total effect is a blue iris. .40 each. 3 for \$1. 12 for \$3.

Colonel Candelot, height 36 inches. S. smoky-76-78 bronze; F. velvety crimson. A distinct variety. .50 each. 3 for \$1.25. 12 for \$4.50.

Corrida, height 30 inches. S. and F. deep lavender-82-84 blue. Blooms profusely and very fine for massing. .50 each. 3 for \$1.25. 12 for \$4.50.

Cristata, Crested Iris, height 3 inches. Amethyst blue flowers in April. Fine for rock gardens. .25 each. 3 for .65. 12 for \$2.50.

Crusader, height 36 inches. S. and F. broad and of a 85-85 clear blue-violet shade. Very fine large flowers. .75 each. 3 for \$2. 12 for \$7.

Cypriana Superba, height 18 inches. S. and F. fine 83-81 royal purple; large flower. Considered by most to be superior to Kharput. .25 each. 3 for .65. 12 for \$2.40.

Dalila, height 24 inches. S. white slightly flushed; F. 76-79 rich violet-red. Distinct. .50 each. 3 for \$1.25. 12 for \$4.50.

Dejazet, height 24 inches. S. bronze; F. smoky-red-77-78 dish violet. .50 each. 3 for \$1.25. 12 for \$4.50.

Dr. Bernice, height 30 inches. S. coppery bronze; F. 64-73 rich velvety plum; extra. .25 each. 3 for .65. 12 for \$2.40.

Dream, height 30 inches. S. and F. a delightful, soft, 84-84 even pink. Probably the best pink so far introduced. .75 each. 3 for \$2. 12 for \$7.

Dusky Maid, height 30 inches. S. buff; F. deep mauve 76-77 deepening toward the center. .35 each. 3 for .90. 12 for \$3.25.

Edouard Michel, height 36 inches. S. and F. deep 78-81 reddish-violet. A finely formed flower of large size. .35 each. 3 for \$1. 12 for \$3.50.

Empress of India, height 36 inches. S. clear bluish 81-80 lavender; F. slightly darker. A very attractive variety with broad foliage. Very scarce. .75 each. 3 for \$2. 12 for \$7.50.

Fairy, height 30 inches. S. and F. pearly white with 76-78 delicate lavender markings at base of petals. Branching habit bearing quantities of flowers. .25 each. 3 for .65. 12 for \$2.40.

Flammenschwert, height 24 inches. S. golden yel-80-80 low; F. velvety maroon with yellow border. Resembles Iris King but clearer in color. .75 each. 3 for \$2. 12 for \$7.50.

Flavescens, height 30 inches. S. and F. a delicate 70-73 shade of soft yellow; prolific bloomer. Very good for borders. .25 each. 3 for .65. 12 for \$2.40.

Florentina alba, height 18 to 24 inches. White; very early and vigorous; valuable for cut flowers. 7.6
.25 each. 3 for .65. 12 for \$2.40.

Folkwang, height 30 inches. S. lustrous light rose; 80-84 F. claret red. Fine for garden effects when a bright rose is desired. \$1.50 each. 3 for \$4.

Graylin, height 24 inches. S. and F. delicate mauve with a slight flush of pink. Blooms freely. .50 each. 3 for \$1.25. 12 for \$4.50.

Her Majesty, height 24 inches. S. old rose; F. white, 70-74 striped rosy lilac. Very large flower. .25 each. 3 for .65. 12 for \$2.40.

Hiawatha, height 30 inches. S. pale lavender flushed 61-68 rose; F. purple bordered lavender. .25 each. 3 for .65. 12 for \$2.40.

Inca, height 24 inches. S. smoky-yellow; F. rich velvety reddish-plum, marked yellow. .75 each. 3 for \$2. 12 for \$7.50.

Ingeborg, height 15 inches. Light straw color, nearly 76-79 white with yellowish beard. Early. .25 each. 3 for .65. 12 for \$2.40.

Iris King, height 30 inches. S. old gold; F. velvety 80-80 plum edged golden yellow. Of rich coloring and striking appearance. .35 each. 3 for .90. 12 for \$3.50.

Juniata, height 36 inches. Clear blue with tall stems 78-81 and large flowers. Very fine. .35 each. 3 for .90. 12 for \$3.50.

Kochi, height 24 inches. Self color of deep rich purple. 75-80 The pointed buds are almost black and very effective in the garden. .35 each. 3 for .90. 12 for \$3.50.

Lent A. Williamson, height 30 to 36 inches. S. deep 88-88 blue; F. rich royal purple. Free flowering and vigorous and a fine variety both for cutting and in the garden. .50 each. 3 for \$1.35. 12 for \$5.

Lohengrin, height 36 inches. Self color of beautiful 76-79 old rose. Free flowering and of vigorous growth. Excellent for the garden. .35 each. 3 for .90. 12 for \$3.25.

Lord of June, height 42 inches. S. blue-lavender; F. 88-78 deep blue-violet. A strong grower oftentimes producing flowers of immense size. .65 each. 3 for \$1.75. 12 for \$6.

Loreley, height 24 inches. S. light yellow; F. ultra- 73-78 marine blue bordered cream. Fine for mass effects. .25 each. 3 for .65. 12 for \$2.40.

Planting large trees and shrubs in winter is one of our specialties.

Magnifica, height 36 inches. S. pale blue; F. red-87-85 violet. Exceptionally large flowers borne on stout branching stems. A very popular variety. .75 each. 3 for \$2. 12 for \$7.

Ma Mie, height 36 inches. S. and F. white, edges 78-80 pencilled lavender. Very dainty and attractive variety. .50 each. 3 for \$1. 12 for \$3.50.

Marsh Marigold, height 30 inches. S. pale golden 82-81 yellow; F. deep purple-brown with golden edge. Rich coloring. .75 each. 3 for \$2. 12 for \$7.

Mary Garden, height 30 inches. S. pale smoky 72-72 yellow; F. creamy white heavily dotted maroon. Delicate and attractive coloring. .35 each. 3 for .90. 12 for \$3.

Merlin, height 30 inches. S. and F. light pink clouded 79-77 lavender. Large flower. .50 each. 3 for \$1.25. 12 for \$4.

Madame Chereau, height 3 to 4 feet. Pure white, 69-70 edges beautifully pencilled azure; superb. .25 each. 3 for .65. 12 for \$2.40.

Monseigneur, height 30 inches. S. deep violet; F. 74-77 velvety purple with deep violet veinings. Especially rich and attractive coloring. .25 each. 3 for .65. 12 for \$2.40.

Mrs. Alan Gray, height 24 inches. S. and F. delicate 71-74 old rose. Well shaped flowers and broad petals. With us will sometimes give second bloom in the fall. .25 each. 3 for .65. 12 for \$2.40.

Mrs. H. Darwin, height 24 inches. White. F. slightly 63-70 reticulated violet at base. Extra. .25 each. 3 for .65. 12 for \$2.40.

Mrs. Neubronner, height 24 inches. Deep, golden 67-69 yellow; one of the best of this color. .25 each. 3 for .65. 12 for \$2.40.

Moliere, height 30 inches. S. violet; F. dark velvety-79-79 violet, showing some veining. .40 each. 3 for \$1. 12 for \$3.50.

Morning Splendor, height 36 inches. S. rich deep red-91-91 violet; F. slightly darker. As its name implies, it gives a splendid effect when seen on sunny days. Considered the finest iris produced in America. \$1.50 each. 3 for \$4. 12 for \$14.

Mt. Penn, height 30 inches. S. violet-red; F. deeper 72-79 with rich coloring. A fine garden variety. .25 each. 3 for .65. 12 for \$2.40.

Mother of Pearl, height 42 inches. Self color of pale 84-84 bluish-lavender with pearly tints. Flowers of good form and great substance. .50 each. 3 for \$1.25. 12 for \$4.

Opera, height 30 inches. S. bright red-violet; F. deep 82-83 velvety red-purple. Makes a bright note in the garden and should be in every collection. .50 each. 3 for \$1.25. 12 for \$4.50.

Pallida Dalmatica, height 36 inches. A much sought 83-85 variety with strong, broad leaves and wide petaled lavender flowers. Fine for massing. .25 each. 3 for .65. 12 for \$2.40.

Pallida Speciosa, height 3 to 4 feet. We formerly 8.0 listed this under the name of P. Dalmatica, but this variety is taller and, we think, more effective than the latter in mass plantings. It has the broad foliage of the Pallida varieties and lavender flowers borne four or five on a stalk. .25 each. 3 for .65. 12 for \$2.40.

Phyllis Bliss, height 36 inches. S. and F. pale pink- 78-84 lavender of very fine form and growth. .75 each. 3 for \$2. 12 for \$7.50.

Princess Victoria Louise, height 30 inches. S. pale 74-74 yellow; F. rich violet edged cream. Very fresh coloring and especially attractive in the garden. .25 each. 3 for .65. 12 for \$2.40.

Prosper Laugier, height 30 inches. S. bronze-red; F. 86-84 pansy-purple. One of the best of the "bronze" colors. .35 each. 3 for .90. 12 for \$3.50.

Pumila varieties, height about 5 inches. Light blue, dark blue, white, yellow, royal purple. .25 each. 3 for .65. 12 for \$2.40.

Quaker Lady, height 24 inches. S. pale reddish-lav- 72-75 ender; F. slightly darker the whole flower lighted with buff. Delicate coloring. .35 each. 3 for .90. 12 for \$3.50.

Queen Caterina, height 30 inches. Pale lavender- 88-88 violet self color of attractive form and habit of growth. Vigorous. .50 each. 3 for \$1.25. 12 for \$4.50.

Raffet, height 24 inches. S. and F. dark blue with 74-74 some white markings at the base. .50 each. 3 for \$1.25. 12 for \$4.50.

Rhein Nixe, height 30 inches. S. white; F. velvety- 82-83 violet, bordered white. A strong grower and conspicuous in the garden. .35 each. 3 for .90. 12 for \$3.50.

Richard II, height 20 inches. S. clear white; F. vel- 76-73 vety dark purple edged white. Blooms freely. .75 each. 3 for \$2.00. 12 for \$7.50.

Note our list of the better lilacs.

Rodney, height 36 inches. Violet-blue self color. Large 76-77 flowers on strong stems. .50 each. 3 for \$1.25. 12 for \$4.

Rose Unique, height 24 inches. Very bright old rose, total effect is bright pink. .25 each. 3 for .65. 12 for \$2.40.

Roseway, height 30 inches. S. and F. red-violet, not 74-78 large but good color for massing. .50 each. 3 for \$1.25. 12 for \$4.50.

Rota, height 30 inches. S. red-violet; F. deeper. Large 75-83 flowers of good form and habit. .75 each. 3 for \$2. 12 for \$7.50.

Sarpedon, height 30 inches. S. lavender; F. deep 78-77 lavender. The large flowers give a long season of bloom. .50 each. 3 for \$1.25. 12 for \$4.50.

Seminole, height 36 inches. S. reddish violet; F. 83-83 velvety crimson. Masses of color produce a striking effect. .50 each. 3 for \$1.25. 12 for \$3.50.

Shekinah, height 36 inches. Pale yellow with deeper 84-84 shadings. One of the very best tall yellows. .50 each. 3 for \$1.25. 12 for \$4.50.

Sherwin Wright, height 24 inches. S. and F. rich 77-76 bright yellow, flowers of good size and form appear in great abundance. .35 each. 3 for .90. 12 for \$3.

Sibirica Orientalis, height 42 inches, rich deep blue, very attractive in the opening bud. Blooms about mid-June. .25 each. 3 for .65. 12 for \$2.40.

Siberica, Snow Queen, height 42 inches. Pure white with soft yellow throat. A companion to the blue variety. .25 each. 3 for .65. 12 for \$2.40.

Sindjkha, height 42 inches. S. deep dull lavender 81-80 shaded buff; F. light mauve. .50 each. 3 for \$1.25. 12 for \$4.

Souv. de Mme. Gaudichau, height 36 inches. S. and 91-88 F. a rich blackish-purple. Strong growth and branching habit. Distinct. \$1. each. 3 for \$2.75. 12 for \$10.

Stamboul, height 36 inches. S. light blue; F. violet- 78-77 blue. Very good, free flowering garden variety. .50 each. 3 for \$1.25. 12 for \$4.

Sweet Lavender, height 36 inches. S. pale lavender; 85-87 F. deep rose-lavender. Distinct and beautiful. \$1. each. 3 for \$2.75. 12 for \$10.

Tristram, height 24 inches. S. clear white; F. rich 75-75 deep purple. A distinct and beautiful variety. .50 each. 3 for \$1.25. 12 for \$4.50.

Troost, height 24 inches. S. rosy-lilac; F. darker giving a total effect of rose-pink. .50 each. 3 for \$1.25. 12 for \$4.50.

Vingolf, height 30 inches. S. creamy white; F. velvety purple edged cream. \$1.50 each. 3 for \$4. 12 for \$15.

Virginia Moore, height 30 inches. Clear yellow with 76-77 deeper veinings near base. Self color. .50 each. 3 for \$1.25. 12 for \$4.50.

White Knight, height 24 inches. A beautiful pure 79-80 white without markings. Fragrant. .35 each. 3 for \$1. 12 for \$3.50.

W. J. Fryer, height 30 inches. S. glistening yellow; F. 74-79 dark velvety purple with narrow yellow border. .50 each. 3 for \$1.35. 12 for \$5.

JAPANESE IRIS — IRIS KAEMPFERI

The Japanese Iris close the colorful season of Iris with a fitting glory of fascinating flowers. It is almost impossible to describe the charming effect of a group of these in bloom. When seen in the morning or evening the effect is particularly striking for the tall stems from four to five feet high bring the flowers nearly on a level with the eyes and the sunshine is diffused through snowy white, deep rose and velvety purple. One's adjectives become exhausted in trying to tell of their beauty.

The plants should be set in the spring or early in September so that the roots may become established before winter. The ideal spot is one which is well drained in winter and may be kept moist through May and June just before the plants flower. Peat mixed with the soil is very good as it is retentive of moisture through the hot, dry weather.

We have made numerous importations of Iris from Japan and have bought other collections in this country in our endeavor to obtain the best. In addition we have selected some choice seedlings of our own origination which are equal to any which we have seen. We have only limited stocks of some of these but are offering them, our selection, in three and six petalled varieties in white, gray, maroon, purple, etc., in varying combinations.

Cherry Hill specimen trees give immediate results.

Our selection 40 cents each; \$4.00 per dozen. Varieties listed below 50 cents each; \$5.00 per dozen.

Six or more plants of a variety at the dozen rate.

Astarte, 6 petals, rich, dark blue violet.

Date-Do-Gu, 3 petals; pearl-gray heavily bordered with deep reddish-plum; standards white tipped with reddish-plum.

Gold Bound, 6 petals, broad petals of pure glistening white, with golden throat.

Koki-No-Iro, 6 petals, very large flowers of rich violet purple with white petaloids tipped violet. Vigorous and free flowering.

Mahogany, 6 petals, dark maroon with yellow center. A distinct variety blooming a little later than the others.

Old Rose, 6 petals; a dark shade of old rose.

Peacock, 9 large petals of violet-purple reticulated white.

Pyramid, a very double variety having nine petals of dark blue with white veins at base of petals.

Stella, 3 petals, rich violet petals with white veinings.

E.25, 3 petals, gray, bordered red-violet, center gray edged red-violet.

E.48, 3 petals gray, veined reddish-plum, center reddish plum.

E.66, 6 petals, blue slightly tinged violet with golden throat; center gray, tipped violet-blue.

E.77, 3 petals, deep, rich mahogany; even color throughout. Tall habit of growth.

69 B.X., 6 petals, gray, overlaid and heavily veined blue-lavender, center gray.

X2, 3 petals, white. Very good.

Unnamed Varieties, we have a mixture of colors ranging from pure white to deep purple very fine for naturalizing. \$3.50 per dozen.

HERBACEOUS PERENNIALS

The prominent part that these plants play in the garden is too well known to need a further introduction. But with the coming popularity of the "Rock Garden" they are beginning to supply a still greater need.

While our list of varieties is not as long as some think it might be, yet one will find that those listed can be depended on to give one the utmost satisfaction and that especially to those who dwell in our rugged New England climate.

In almost all cases we can furnish double sized clumps where one wants to get an immediate effect.

Strong Field Grown Plants in the following varieties are priced at 25 cents each or \$2.50 per dozen unless otherwise noted. Double size clump at double price.

*Varieties marked with an asterisk are suitable for rock gardens.

Achillea ptarmica fl. pl. "The Pearl". (Yarrow). Rosette-shaped flowers of pure white are produced in profusion practically all summer. 2 feet.

Aconitum autumnale. (Monkshood). These tall spikes of dark blue flowers will do well in a shady place, although they should not be planted where roots of trees will sap the ground. October. 4 feet. 35 cents each. \$3.50 per dozen.

Aconitum fischeri. Glossy medium green foliage and strong stems bearing cone-shaped heads of intense deep blue. September. 2 feet. 35 cents each. \$3.50 per dozen.

Aconitum napellus. (Aconite). Branching plants with deep blue flowers. June, July. 2 feet. 35 cents each. \$3.50 per dozen.

Aconitum napellus bicolor. A very decorative variety bearing blue and white flowers in June and July. 2 feet. 40 cents each. \$4.00 per dozen.

Aconitum sparksii. The darkest blue of all. Extra nice. July. 35 cents each. \$3.50 per dozen.

Agrostemna coronaria (Mullein Pink). Ornamental foliage of a "woolly" appearance and velvety carmine flowers. June and July. 2 to 3 feet.

Agrostemna coronaria alba. A white flowering form of the above.

Althaea rosea. (Hollyhock). Tall spikes of single and double flowers, ranging from white to dark maroon. July to September. 6 to 8 feet.

Plan for your outdoor living room this summer.

***Alyssum little gem.** A dwarf plant bearing tidy little white flowers used much for borders or edging. 4 to 6 inches.

***Alyssum saxatile compactum.** (Gold Tuft). Small clusters of bright yellow flowers. Very useful for rock work. 8 to 12 inches. May.

Anchusa Italica Dropmore. Bright blue flowers. 3 to 5 feet. May and June.

Anemone Japonica. (Japanese Windflower). Beautiful rosy red or carmine flowers with yellow stamens. Fall flowering. 2 to 3 feet.

Anemone Japonica Alba. Handsome white flowers with yellow stamens. September. 2 to 3 feet.

Anemone, Queen Charlotte. Deep apple blossom pink, semi-double. 2 to 3 feet.

Anemone, Whirlwind. Pure white, semi-double flowers. 3 to 4 feet.

Anemone Sylvestris. (Snowdrop Anemone). Single white flowers in May and June. 12 to 15 inches. Very good for naturalizing in half shade such as the edge of a grove.

Anthemis Tinctoria Kelwayi. (Hardy Marguerite). Rich golden-yellow blossoms. June, July and August. 15 to 18 inches.

Aquilegia Canadensis. (Columbine). Bright scarlet and yellow flowers. 12 to 15 inches. May and June.

Aquilegia Chrysantha. Yellow with claret-tinted tip. Excellent. 18 to 24 inches.

Aquilegia, Long-Spurred Hybrids. New large flowering strain. Blossoms of exquisite shades. 18 to 24 inches. May and June.

Aquilegia Nivea Grandiflora. Beautiful pure white flowers. 18 to 24 inches.

***Arabis Alpina.** (Rock Cress). Pure white, dwarf. May. 6 to 12 inches.

***Arabis alpina flora plena.** A double form of the above and much superior. 35 cents each. \$3.50 per dozen.

***Armeria Formosa.** (Sea Pink). Bright green foliage, bright rose blossoms. 9 to 12 inches. Blooms all summer.

Aster, Novae-Angliae. (New England Aster). Cerulean blue flowers. 3 to 5 feet. September and October.

Aster, Novae-Angliae Rosea. Beautiful soft rose-colored flowers. 3 to 5 feet.

Strong field grown perennials twenty-five cents each, two and one half dollars per dozen except as noted. Six or more plants of a single variety at the dozen rate.

Aster Novi-Belgi, Climax. Large lavender-blue flowers of a most exquisite shade. August and September. 3 to 4 feet. 35 cents each. \$3.00 per dozen.

Aster Novi-Belgi Climax, White. A white form of the above having the same strong growth and large flowers. September. 3 to 4 feet. 35 cents each. \$3.00 per dozen.

Aster, St. Egwin. One of the finest out, bearing an abundance of beautiful pink flowers. 30 cents each. \$3.00 per dozen.

***Astilbe Japonica Gladstone.** (Japanese Spirae). Fine white flowers, in large pyramidal heads. June and July. 2 feet.

***Astilbe, Peach Blossom.** A fine new variety bearing large panicles of soft pink. June and July. 2½ feet. 40 cents each. \$4.00 per dozen.

***Astilbe, Queen Alexandra.** Soft pink hybrid. New. Very handsome. 30 cents each. \$3.00 per dozen.

***Astilbe, Salmon Queen.** A delicate shell-pink. June to August. 2½ feet. 50 cents each. \$4.00 per dozen.

***Bellis Perennis.** (English Daisy). Flowers of white, red and pink, evenly formed, double, about 1 to 2 inches in diameter. 3 to 6 inches. May and June.

Bocconia Cordata. (Plume Poppy). Unique buff flowers. Valuable for screen and foliage. 5 to 8 feet. July and August.

Boltonia Asteroides. (False Chamomile.) Daisy-like flowers in great abundance. 5 to 7 feet. September and October.

Boltonia Latisquama. Delicate lavender petals and yellow center. A charming variety. 4 to 6 feet. August and October.

***Campanula Carpatica.** (Carpathian Harebell). Beautiful large, deep blue flowers. 12 inches. June to September.

Campanula Calycanthema. (Cup and Saucer). Self colors, rose, blue and white. 2 to 3 feet. July and August.

Campanula Media. (Canterbury Bells). Bell-shaped flowers, dark blue, light blue, white, and rose. Biennial. 2 to 3 feet. July and August.

Campanula Persicifolia Grandiflora. Large, deep blue, salver-shaped flowers. 2 feet. July and August.

Evergreen rock gardens are attractive the year around.

Campanula Persicifolia Alba. Double. A pure white variety of the above. 35 cents each. \$3.50 per dozen.

Centaurea Montana. (Perennial Corn Flower). Large, violet-blue flowers. July to September. 2 feet.

Centaurea Montana Alba. A white form of the above. 30 cents each. \$3.00 per dozen.

***Cerastium tomentosum** (Snow in Summer). A very pretty plant from the Rocky Mountains. Silvery white foliage and snow-white flowers. Excellent for rockeries.

Chelone glabra. (White Turtle Head). White flowers of peculiar shape, somewhat resembling the closed gentian. 2 to 2½ ft. July and August.

Chelone lyoni. (Turtle Head). Showy flowers of a purplish-red. 2 to 2½ feet. July, August and September.

Chrysanthemum coreanum. (Korean Chrysanthemum). A new hardy introduction from Korea. Plants grow from 2 to 4 feet in height and bear beautiful white flowers with a golden center. 30 cents each. \$3.00 per dozen.

Chrysanthemum, hardy pompon. Strong hardy plants in yellow, white, bronze, and pink. 3 to 4 feet. November.

Chrysanthemum, shasta daisy. Large white blossoms, 3 to 4 inches across, yellow centers. 15 to 18 inches. September and October.

***Convallaria Majalis.** (Lily of the Valley). Delicate waxy white flowers. 6 to 10 inches. May. Strong clumps. 50 cents each. \$5.00 per dozen.

Coreopsis Lanceolata. (Tick Seed). Bright golden-yellow single flowers. June to September. 2 to 3 feet.

Delphinium Belladonna. (Larkspur). Beautiful blue flowers, free blooming. Dwarf habit. 30 cents each. \$3.00 per dozen.

Delphinium Bellamosa. The darkest blue of all. Extra fine. 30 cents each. \$3.00 per dozen.

Delphinium Chinensis. Delicate light blue flowers. 12 to 15 inches. July and September.

Delphinium Chinensis Alba. A white form of the above.

Delphinium Elatum. Dark blue. 3 to 6 feet. June to September.

Delphinium Hybridum. Fine strain, flowers varying from lightest to darkest blue. 5 to 6 feet. June to September.

First impressions are lasting. Make your home grounds attractive.

Delphinium hybridum. (English). A selected strain of English hybrids bearing flowers of large size and many different shades. 5 to 6 ft. 50 cents each. \$5.00 per dozen.

Delphinium hybridum extra selected from the world's best strains. Every one of these plants has bloomed in our nursery where they have been carefully selected and marked according to their colors which range from almost a pure white to others that are nearly black. You can make no mistake in choosing some of these. \$1.00 each. \$10. per dozen.

***Dianthus barbatus.** (Sweet William). Large flat heads of flowers in scarlet, white, maroon, and pink. Entire season. 12 to 15 inches.

***Dianthus Beatrix.** A new introduction of rare merit. Plants are of compact growth with blossoms double and about $1\frac{1}{4}$ inches diameter. An entrancing light salmon pink in May and June and then intermittently from August on. 12 to 15 inches high. Plants from $2\frac{1}{2}$ inch pots 25 cents each. \$2.50 per dozen. From $3\frac{1}{2}$ inch pots, 50 cents each. \$4.00 per dozen.

***Dianthus Deltoides.** (Maiden Pink). A dwarf form with tufted foliage, bearing small bright pink flowers in May and June. Fine for rock planting.

***Dianthus Plumarius.** (Grass Pink). Light, silvery foliage, flowers in various shades, from flesh-white to deep pink. 12 to 15 inches. May to June.

Dianthus Plumarius Hybrids. (Hardy Garden Pink). Double flowers in white and several shades of crimson. 12 to 15 inches. June to October. 30 cents each. \$3.00 per dozen.

Dicentra Spectabilis. (Bleeding Heart). Peculiar, heart-shaped pink and white blossoms borne in long racemes. 2 feet. May to June. 60 cents each. \$6.00 per dozen.

Dictamnus Fraxinella. (Gas Plant). Deep, rose-pink flowers, and dark green foliage which holds its color throughout the season. 2 to 3 feet. June. 35 cents each. \$3.50 per dozen.

Dictamnus Fraxinella Alba. A very pretty white form of the above. 40 cents each. \$4.00 per dozen.

Digitalis. (Foxglove). Large, wooly-leaved biennial bearing enormous spikes of showy flowers in many colors. 3 to 4 feet. June to September.

Digitalis Ambigua. A hardy perennial bearing spikes of light yellow flowers. 2 to 3 feet. June and July.

Strong field grown perennials twenty-five cents each, two and one half dollars per dozen except as noted. Six or more plants of a single variety at the dozen rate.

Digitalis Lutea. (Straw Foxglove). A perennial bearing rather small pale yellow flowers. 2 feet. June to September. 35 cents each. \$3.50 per dozen.

***Funkia Coerulea.** (Blue Day-Lily). Light blue flowers, foliage large and of tropical appearance. 18 to 24 inches. July to August.

***Funkia Subcordata.** (White Day-Lily). Large, pale green tropical foliage, bearing waxy-white flowers. 18 to 24 inches. 45 cents each. \$4.50 per dozen.

***Funkia Variegata.** Variegated foliage, very showy, dwarf. 6 to 12 inches.

Gaillardia Grandiflora. (Blanket Flower). Large crimson and gold flowers. Very showy. 18 to 24 inches. July to October.

***Geum** (Avens) **Lady Stratheden.** Same as Mrs. Bradshaw but of a rich golden yellow color. 12 inch. 35 cents each. \$3.50 per dozen.

Mrs. Bradshaw. Double flowers of a rich fiery orange-red. Valuable for cuttings or as a border. 12 inch. 35 cents each. \$3.50 per dozen.

Gladiolus. See last page.

Gypsophila Bristol Fairy. A wonderful recent introduction, considered the best of all. Produces large pure white flowers throughout the summer. Strong plants. 75 cents each. 3 for \$2.00.

Gypsophila Paniculata. (Baby's Breath). The well-known plant having branching stems and fine white flowers. Exceptionally good for cutting. 2 to 3 feet. June to August.

Helenium Autumnale. (Sneezewort). Bright yellow flowers. August and September. 4 to 6 feet.

Helenium Autumnale Rubrum. New, bright terra-cotta flowers. August and September. 3 to 4½ feet. 35 cents each. \$3.50 per dozen.

Helianthus Multiflorus Fl. Pl. (Double Sunflower). A new form which is the best we have seen, bears large golden yellow flowers in great profusion. Fine for cutting. 3 to 4 feet. July to September. 35 cents each. \$3.00 per dozen.

Helianthus Orgyalis. (Sunflower). Bright golden yellow flowers. 5 feet. August and September.

***Hemerocallis Dumortieri.** Very dwarf. 18 inches. Rich golden yellow. June.

***Hemerocallis Flava.** (Lemon Lily). Bright, single yellow flowers, foliage long and narrow. 2 feet. June. 30 cents each. \$3.00 per dozen.

***Hemerocallis, Gold Dust.** (Yellow Day-Lily). Bright orange-yellow, with buds and reverse side of petals handsome golden-bronze. May and June. 2½ feet.

- ***Hemerocallis Kwanso Fl. Pl.** Double; orange-yellow with deep red spots. July. 2 to 2½ feet.
- ***Hemerocallis Minor.** Clear yellow flowers appear in June, fine foliage. 18 inches.
- ***Hemerocallis Thunbergi.** Single, clear yellow flowers. July. 30 cents each. \$3.00 per dozen.
- ***Heuchera Brizoides.** (Pink Bells). This grows 2 feet tall and bears deep pink flowers. June to September. 35 cents each. \$3.00 per dozen.
- ***Heuchera Sanguinea.** (Coral Bells). Bright coral-red flowers, good for cutting. 1 to 2 feet. June to September. 35 cents each. \$3.00 per dozen.
- ***Heuchera S. Gracillima.** (Grassleaf Coral Bells). A variety of the above having a more slender habit of growth. 2 feet. June to September. 35 cents each. \$3.00 per dozen.
- Hibiscus Moscheutos.** (Mallow). Single white flowers with crimson center. 4 to 6 feet. August. 30 cents each. \$3.00 per dozen. Extremely showy.
- ***Iberis Gibraltarica.** (Hardy Candytuft). A beautiful delicate lavender. 9 to 12 inches. May and June.
- ***Iberis Sempervirens.** (Hardy Candytuft). Numerous flat, snow-white flowers. Very pretty. 9 to 12 inches. May and June.
- ***Incarvillea Delavayi.** (Hardy Gloxinia). A rare and charming plant bearing clusters of beautiful rose colored flowers. 18 inches. Mid-summer. 40 cents each. \$4.00 per dozen.
- Iris.** See our special section, wherein you will find listed many of the choicest varieties grown.
- ***Lavandula Vera.** (Sweet Lavender). Fragrant lavender flowers with aromatic silver-gray foliage. 9 to 12 inches. July to September. 35 cents each. \$3.00 per dozen.
- ***Lilium Auratum.** (Gold-banded Lily). Glistening ivory-white, dotted with brownish spots and a gold band through the center of each petal. Fragrant. 2 to 3 feet. July and August. 40 cents each. \$4.00 per dozen.
- Lilium Canadense.** (Canada Lily). Drooping flowers of buff-yellow on strong stems. 4 feet. August to September. 30 cents each. \$3.00 per dozen.
- Lilium Candidum.** (Madonna Lily). Pure white and very fragrant. Considered extra choice. 40 cents each. \$4.00 per dozen.
- ***Lilium Elegans.** An upright form bearing many flowers of brilliant scarlet. 18 to 24 inches. June and July. 30 cents each. \$3.00 per dozen.

Perennials marked with an asterisk are especially adapted for rock gardens.

Lilium Philadelphicum. (Wood Lily). A native of upright growth liking a sandy soil and some shade. Orange-scarlet flowers in July. 1 to 2 feet. 30 cents each. \$3.00 per dozen.

***Lilium Regale.** (Regal Lily). One of the most beautiful ever introduced. Trumpet-shaped. Ivory-white with pink shading, center a handsome canary-yellow tint. Large bulbs. Very fragrant. 60 cents each. \$6.00 per dozen.

Lilium Rubrum Melpomene. Dull ivory-white thickly dotted with red spots, giving a rosy effect. 2 to 3 feet. July and August. 40 cents each. \$4.00 per dozen.

Lilium Superbum. (Turk's Cap Lily). Orange with darker spots. This lily is hardy and easily grown. The flower stems often attain a height of 5 to 6 feet. July. 30 cents each. \$3.00 per dozen.

Lilium Tigrinum. (Tiger Lily). Quite showy scarlet, with crimson dots. 4 to 5 feet. August. 30 cents each. \$3.00 per dozen.

***Limonium Latifolium.** (Sea Lavender). Delicate lacy flowers of lavender in large heads. 2 feet. 35 cents each. \$3.00 per dozen.

***Linum Flavum.** (Golden Flax). Light graceful foliage and pale yellow flowers which appear all summer. 18 inches. 30 cents each. \$3.00 per dozen.

Linum Perenne. (Hardy Flax). Beautiful porcelain blue flowers. 24 inches. Midsummer. 30 cents each. \$3.00 per dozen.

***Lobelia Cardinalis.** (Cardinal Flower). Long spikes of intense red. 3 feet. July and August.

***Lobelia Syphilitica.** (Great Lobelia). Spikes of deep royal purple; very attractive. 2 feet. September.

Lupinus Polyphillus. (Lupin). Long spikes of showy flowers in June and again in September. Blue, white and pink. 3 feet.

***Lychnis Flos cuculi.** (Ragged Robin). Deep pink flowers with narrow petals. Blooms all summer. 12 to 18 inches.

***Lychnis Viscaria.** (Campion). Spikes of bright pink flowers appear in June and July. Good for cut flowers. 1 to 2 feet. 30 cents each. \$3.00 per dozen.

***Mertensia Virginica.** (Virginia cowslip). Beautiful sky-blue flowers with an occasional pink tint. 18 inches. Early May.

Monarda, Cambridge Scarlet. (Bergamot). Fragrant scarlet flowers. Spicy foliage. 2 to 3 feet. July and August.

Strong field grown perennials twenty-five cents each, two and one half dollars per dozen except as noted. Six or more plants of a single variety at the dozen rate.

***Myosotis Palustris.** (Forget-Me-Not). No garden is complete without this beautiful blue flower. 3 to 6 inches. May to October.

***Oenothera Missouriensis.** (Evening Primrose). Large, deep, buttercup-yellow flowers spotted with red. 9 to 12 inches. June to September. 35 cents each. \$3.50 per dozen.

***Oenothera Youngi.** Large, bright yellow. 12 to 18 inches. June to September. 30 cents each. \$3.00 per dozen.

***Papaver Nudicaule.** (Iceland Poppy). Beautiful blossoms the entire season, of yellow, white, and orange. 12 inches.

Papaver Orientale. (Oriental Poppy). Large, brilliant scarlet flowers, 4 to 6 inches in diameter. Very striking. 3 to 4 feet. May and June. 30 cents each. \$3.00 per dozen.

Papaver Orientale Hybrids. Very large flowers in red, pink, salmon, etc. 3 to 4 feet. May and June. 30 cents each. \$3.00 per dozen.

Penstemon Barbatus Torreyi. (Beard Tongue). Medium spikes of deep scarlet-red. 2 feet. June to August.

Penstemon Digitalis. Large spikes of white flowers, somewhat resembling foxglove. June and July. 2 to 3 feet.

***Phlox Divaricata.** (Canadensis). Beautiful lilac-blue flowers in abundance. It is especially beautiful as it appears in April and May. Fine for cutting. 8 to 12 inches. 30 cents each. \$3.00 per dozen.

***Phlox Sublata.** (Moss Phlox). A dwarf-creeping plant which forms a carpet. Good for rock planting. 6 to 9 inches. May to July. Pink, white, and lavender.

Physalis (Chinese lantern). A very unique and showy plant in the fall when it is covered with orange red calyces about an inch and one-half in diameter. These are very ornamental when dried and hung up in the winter.

Physostegia Virginica. (False Dragon Head). Tall erect spikes bearing pink flowers. Very pretty. 3 to 4 feet. July and August.

Physostegia Virginica Alba. A white form of the above.

Platycodon Grandiflora. (Chinese Balloon Flower). A bushy plant, bearing soft blue flowers all summer; buds resembling tiny balloons. 2 to 3 feet.

Keep your plants and shrubs well watered.

- Platycodon Alba.** Same as above, except that the flowers are clear white with purple veinings.
- ***Polymonium Richardsoni.** (Jacob's Ladder). Finely cut foliage, bearing heads of bright blue flowers. 18 inches. June and July.
- ***Polymonium Richardsoni Alba.** A white variety of the above.
- ***Primula Japonica.** (Primrose). A vigorous and hardy primrose bearing clusters of white flowers in May and June. 12 to 18 inches. 35 cents each. \$3.00 per dozen.
- ***Pyrethrum Hybridum.** (Feverfew). Very showy flowers of red, pink and white. June and July.
- Pyrethrum Uliginosum.** (Giant Ox-Eye Daisy). Numerous daisy-like blossoms. 4 to 5 feet high. September. 30 cents each. \$3.00 per dozen.
- ***Ranunculus Repens. Fl. Pl.** (Double flowered Buttercup). Bright golden yellow flowers about one inch in diameter. Semi-prostrate habit of growth. 1½ to 2 feet. May and June.
- Rhudebeckia Purpurea.** (Purple Cone Flower). A very effective perennial for emphasis in the border. Reddish-purple petals and cone-shaped center. 3 to 4 feet. July and October.
- ***Scabiosa Caucasica.** (Mourning Bride). Delicate lilac-blue flowers, borne in handsome bunches from June to September. 1 to 1½ feet. 35 cents each. \$3.50 per dozen.
- ***Scabiosa Caucasica Alba.** A white flowered form of the preceding. The flowers, borne on slender stems are charming. June to September. 1 to 1½ feet. 40 cents each. \$4.00 per dozen.
- ***Sedum Acre.** (Gold Moss). Tiny flowers forming a carpet of golden yellow. Good for rock work. 4 to 6 inches. May and June.
- ***Sedum Ewersi.** (Ewer's Stonecrop). A trailing plant with light green leaves and purplish-pink flowers in September. 4 to 6 inches.
- ***Sedum Kamschaticum.** (Orange Stonecrop). Prostrate green foliage and flat heads of golden flowers. July to September. 6 to 9 inches. 30 cents each. \$3.00 per dozen.
- ***Sedum Sarmentosum.** (Stonecrop). A dwarf plant having pale green leaves and yellow flowers. Good for rock work. 4 to 6 inches.
- ***Sedum Spectabile.** (Showy Stonecrop). Rose and purple-colored flowers borne in large clusters. Very showy. 18 to 24 inches. June and July.
- ***Sedum Stahli.** A trailing much-branched plant with light green leaves and pinkish stems, small yellow flower.

Perennials marked with an asterisk are especially adapted for rock gardens.

- ***Sedum Stoloniferum.** (Running Stonecrop). A very pretty creeping rock plant having deep pink or reddish flowers and glabrous green leaves. 6 inches.
- ***Sempervivum Globiferum.** (Houseleek). Sometimes called Hen-and-Chickens as a small globe is surrounded by smaller ones. Will grow in very thin soil. 2 to 3 inches.
- ***Star of Bethlehem.** Beautiful white star-shaped flowers. Foliage narrow and long, of a deep green color. 9 to 12 inches. May and June.
- Statice.** See Limonium.
- Thalictrum adiantifolium** (Meadowrue). This variety is very attractive with its fern-like foliage and brown and yellow flowers in June. 2 to 2½ feet.
- ***Thymus (Thyme). serpyllum.** These dwarf growing semi-prostrate plants with their fragrant foliage and rosy purple blossoms in July and August are very attractive for rock gardens and banks. 6 inch.
- Thymus serpyllum album.** Same as above but has white flowers.
- ***Trollius Caucasicus.** (Globe Flower). Orange-yellow flowers on stems about 18 inches tall. June and July. 40 cents each. \$4.50 per dozen.
- ***Trollius Europaeus.** (Double Buttercup). Large, showy, lemon-yellow flowers. 15 to 18 inches. June and July. 40 cents each. \$4.50 per dozen.
- ***Trollius Ledebouri.** A recent introduction growing about 2½ feet high and bearing large deep orange yellow blossoms late June and July. 60 cents each. \$5.50 per dozen.
- Valeriana Centranthus.** (Jupiter's Beard). The old-fashioned "Valerian". A garden herb. In separate colors: white, pink, and red. 2 to 3 feet.
- ***Veronica Incana.** (Woolly Speedwell). White woolly plants with pale blue flowers. 1 to 1½ feet high. Very ornamental for rockery or border. July and August. 30 cents each. \$3.00 per dozen.
- ***Veronica L. Subsessilis.** (Clump Speedwell). An improvement of Longifolia with darker foliage and shorter, more branching spikes of intense blue. 2 to 3 feet. July and August. 35 cents each. \$3.50 per dozen.
- ***Viola Cornuta.** (Tufted Pansy). These ornamental plants bloom practically all summer; dwarf. 3 to 6 inches.
Admiration. Dark blue to soft purple, with dark splotches.
Lutea Splendens. Deep, golden yellow.
Perfection. Light blue, very nice.
White Perfection. Fine white, sweet scented.

A permanent Christmas tree is a delight throughout the year.

- ***Viola Jersey Gem** (New). Very hardy—dwarf—bearing a large number of rich pure violet blossoms during the entire season. 30 cents each. \$3.00 per dozen.
- ***Viola odorata rosina** (Sweet Violet). This new hardy viola with its pretty rose-pink blossoms which are in abundance both spring and fall certainly has a future before it. 50 cents each. \$5.00 per dozen.
- ***Viola Suttons apricot**. This new introduction is well worthy of a place among the best. Flowers of good size and of a beautiful rich apricot shade with orange tinging toward center. 35 cents each. \$3.50 per dozen.

GLADIOLUS

We are offering the following varieties that we have carefully selected from the many that are being offered the public, as we have found them to be very reliable and such as will find a ready place in any well regulated garden.

Strong flowering bulbs. No. 1 size. $1\frac{1}{2}$ inches diameter and up. No. 2 size. 1 to $1\frac{3}{8}$ inches diameter at two-thirds of prices noted. While these are not as desirable as the No. 1 size yet they will all flower this season.

Alice Tiplady. A new Primulinus of a beautiful orange-saffron. Ranks among the highest. 10 cents each. \$1.00 per dozen.

America. One of the best. Flowers an exquisite shade of pink and quite large. 3 for 25 cents. 75 cents per dozen.

Baron Hulot. Rich deep blue, the best of its color known. 3 for 35 cents. \$1.25 per dozen.

E. J. Shaylor. A tall, strong-growing variety, of a beautiful deep pure pink. Awarded Certificate of Merit by Royal Horticultural Society of England, 1920. Extra choice. 15 cents each. \$1.25 per dozen.

Empress of India. Deep rich velvety red—very attractive. No garden complete without it. 3 for 30 cents. \$1.00 per dozen.

Fancy Hybrids. Extra choice selected. Very free flowering and rich in their colorings. 75 cents per dozen. \$6.00 per 100.

Flora. A very beautiful light yellow, considered by many as one of the best. 10 cents each. \$1.00 per dozen.

Golden Measure. A pure dark yellow. Extra choice. 15 cents each. \$1.25 per dozen.

Gretchen Zang. A remarkably fine soft pink, blending into scarlet on lower petals. 10 cents each. \$1.00 per dozen.

Plants and Shrubs set out in hot weather should be kept shaded the first few days.

- Kundred's Glory.** Delicate pink with creamy buff shading, ruffled petals; very fine for display. \$1.50 per dozen. \$9.00 per 100.
- Lily White.** One of the latest sensations in gladiolus. An attractive pure white of extra size. Awarded First Prize, New York Horticultural Society, 1918, and First Class Certificate of Merit, Massachusetts Horticultural Society, 1917. 15 cents each. \$1.25 per dozen.
- Marshal Foch.** One of the recent sensations in the gladiolus world. Fine salmon-pink flowers, giant in size. 15 cents each. \$1.25 per dozen.
- Mary Fennell.** A strikingly beautiful light lavender. 15 cents each. \$1.50 per dozen.
- Mary Pickford.** New and extra choice. Considered by experts as the best of the creamy whites. Throat a beautiful sulphur-yellow. Awarded Certificate of Merit, Royal Horticultural Society, London, and First Class Certificate of Merit, North Shore Horticultural Society, Manchester, Mass. 10 cents each. \$1.00 per dozen.
- Miss Helen Franklin.** A very choice new ruffled white with violet markings on lower petals. Strong and vigorous in growth. 10 cents each. \$1.00 per dozen.
- Mrs. Dr. Norton.** New and considered one of the finest gladiolus in existence. Creamy tinted light pink with a beautiful yellow center. 10 cents each. \$1.00 per dozen.
- Mrs. F. C. Peters.** Soft rose-lilac resembling an orchid in color. Large flowers and good spikes. 15 cents each. \$1.25 per dozen.
- Mrs. Francis King.** Bright flame-pink, large flowers. 75 cents per dozen.
- Mrs. Frank Pendleton.** Clear, soft rose-pink, one of Mr. Kundred's best. 75 cents per dozen.
- Mrs. Watt.** Deep blood-red, very striking. \$1.25 per dozen.
- Niagara.** Clear, delicate yellow of a pleasing tint. \$1.25 per dozen. \$9.00 per 100.
- Panama.** A variety somewhat deeper and larger than America and much better. \$1.00 per dozen.
- Peace.** Large, beautiful white flowers, with pale lilac feathering on inferior petals. \$1.00 per dozen.
- Primulinus Hybrids.** The new strain of gladiolus which is so deservedly popular now. Smaller flowers than the foregoing varieties, but especially graceful for decorating. An extra selected strain. 80 cents per dozen. \$7.00 per 100.
- Purity.** Large beautiful white, very attractive. 10 cents each. \$1.00 per dozen.
- Rose Ash.** A peculiar shade of soft rose-pink with a soft grey light. 15 cents each. \$1.25 per dozen.
- Schwaben.** One of the largest and best of the yellows, with royal purple tongue on lower petals. \$1.25 per dozen.

We invite your attention to the easy manner in which our nurseries may be reached. We are only 36 miles north of Boston and excellent motor roads from all directions reach our place. From Boston via the Andover Turnpike, through Haverhill, or via the North Shore and Newburyport, or over the Historic Newburyport Turnpike, turning at Dummer Academy. From the north, down the beautiful Merrimack Valley, and from Maine and the Provinces through Portland and Portsmouth.
